Mesa, Arizona based Escamilla Law Group recently issued a public advisory about the importance of hiring a professional auto accident attorney when dealing with personal injury claims. The law firm points out that claims related to auto accidents are often tricky and complicated to handle, which is why it is imperative to hire an attorney who knows how to maximize the settlement offered.

?Securing a lawyer after a car accident is the smartest decision that you can make. Not only are you gaining insight and protection during a vulnerable period, you are also more likely to receive full compensation and win your claim with legal counsel than without it,? advises Sergio Escamilla from the Escamilla Law Group.

In a recent interview, Escamilla explains that victims injured in motor vehicle accidents may be able to obtain compensation to help alleviate the financial burdens incurred after their accidents. He states that filing a legal claim is the best way to protect the victims? best interests and ensure that they receive a fair amount of compensation to cover various damages. ?While it is tempting to accept an out-of-court settlement, we highly

recommend hiring an experienced personal injury lawyer, like the ones at Escamilla Law Group, to fully assess and identify the true costs of the accident,? says Escamilla.

He also points out that an auto accident attorney can ensure that the victim receives the maximum amount of compensation on both short and long term damages, including medical bills, property damage, psychological effects, lost wages, lost earning potential, punitive damages, and so on.

Meanwhile, Escamilla states that the experienced personal injury lawyers from the Escamilla Law Group are dedicated to helping victims get the justice and compensation they deserve. ?We will work diligently to help you with your case so you can focus on your physical, emotional, and psychological recovery,? he says. Escamilla also explains that they provide their clients with comprehensive legal services that include investigating the incident; determining the true costs of the accident; communicating with witnesses and victims; handling all necessary paperwork; ensuring timely submission of all documents and claims; preparing for settlements or taking the case to court for trial; and ensuring that the vehicle is repaired or replaced.

Escamilla Law Group is an established Mesa Auto Accident Law Firm whose mission is to serve their clients by providing exceptional representation on all types of personal injury related matters. In addition to auto accident claims, they also specialize in handling a variety of personal injury cases, including wrongful death, slip and fall cases, dog bite claims, and premises liability cases among others.

?We are dedicated to protecting your best interests, understanding your goals, and preparing the most effective legal strategies to win your case. We specialize in handling a wide range of personal injury cases, and we only charge our legal fees if we win your case,? says Escamilla. Moreover, he states that the firm aims to contribute to the local community by working with individuals and organizations that promote and celebrate cultural diversity. In fact, the Escamilla Law Group is comprised of a team of experienced Spanish-speaking attorneys, paralegals, and legal assistants.

Many of the law firm?s previous clients attest to the high level of competence of the lawyers from the Escamilla Law Group, based on a number of positive reviews and recommendations the firm has received online.

Ron C., in a Yelp review, says, ?This (5-star) review is for Sergio, for he has done the most fantastic job for my family. He is very knowledgeable about the law and has gone above and beyond to make sure I was taken care of. If I happen to experience a car accident again, Sergio will always be the man I would hire. Everyone at Escamilla Law Group, including the front desk officer, are friendly and efficient. They are a breath of fresh air compared to other law offices I have had to deal with. I would recommend this law practice to anyone.?
