# Auto Locksmith The Key Guys Gets Rave Reviews

*October 17, 2019*

MINNEAPOLIS, MN - October 17, 2019 -
Minneapolis, Minnesota based key duplication service and car locksmith The Key Guys is reaching out to the wider community to celebrate their continued success in the area. The company?s Google profile has reached nearly 350 reviews, and they are maintaining an overall rating of 4.9/5 stars.

Scrolling through the company?s Google reviews, the company?s success is obvious. It is hard to spot a single review that rates their services anything below 5 stars. In a recent review, Pa Zong Vang says, ?I had a different locksmith stop by help to program a key fob for my vehicle but fail and try to charge me for ?attempting.? But The Key Guys are awesome! They knew what to do and were able to program it within 30 minutes. If it wasn't for them, my car would have been towed.?

Bryan Nystrom, a representative for The Key Guys, responds, ?It truly is a point of pride that we have reached this level of success. We have always tried to make sure to do right by our customers and tried to ensure that we provide the right solutions to their problems. To see that our business is the most and best reviewed auto locksmith in the Twin Cities Metro area is really encouraging, and we only hope that we continue to live up to our hard earned reputation.?

He continues, ?You don?t know when you?ll need a locksmith, but when you end up needing one, you need to be able to trust the person who you?re going to hire. If I may say so myself, nearly 350 people have placed their trust in us and their trust wasn?t misplaced. The Key Guys are here, around the clock, and we?re the best option for locksmithing if you?re in or around the city of Minneapolis, Minnesota. And here?s the best part: you don?t need to come to us either. Depending on the case and the urgency, you can call us and we can come to you and help you out!?

Nystrom?s claims are backed up by Amy Oian?s review, which reads, ?Bryan was very friendly! He was able to quickly get me on the schedule. It was very convenient as he came to my home and completed the service. I would recommend them!?

The Key Guys provide a variety of services including but not limited to fixing ignitions and doors, cutting new keys, replacing batteries in keys and fobs, programming transponders, removing broken keys from ignitions and doors, providing spare backup keys, fixing broken keys, car key programming, and replacing lost and stolen car keys. Nystrom asserts that the company can even program an entirely new set of keys and disable the old set of keys, which is not just useful but also crucial in cases of theft.

In yet another review, Jason Mertz says, ?Bryan is the gentleman who answered on the first ring. We talked about my stolen key and key fob. Less than 24 hours later, he showed up; 15 minutes later, he was leaving. Awesome service. Great attitude. Reasonably priced too. Called three companies for estimates and The Key Guys were cheaper. I appreciate the great service and recommend these people to everyone.?

The company also has near perfect reviews on Facebook. Drew Hagen says in his review, ?Highly recommended! I called this company this morning. Recommended off Angie's List. The guy said he does most of his business with other companies and dealers, though not as often to the general public. But these are the guys! The guy who helped me was professional, friendly, confident, and peppy. My key and remote fob hybrid for my modern car fell off the carabiner; had me devastated. This guy was able to fully replace it, change the frequency on my car so the old key wouldn't work, and even gave me a spare standalone key in case something like this happened again! All of this was reasonably priced.?

Those who wish to learn more about The Key Guys and the services they provide can find more information on the company?s website. Interested parties are also welcome to contact Bryan Nystrom for more details. Additionally, The Key Guys also has a page on Facebook, where they frequently post updates and communicate with their clients.
