Jacobs Low Price Auto Glass Issues Advisory for Windshield Repair Following Dallas Hailstorm

October 18, 2019

October 18, 2019 -
Dallas, TX based Jacobs Low Price Auto Glass has issued an advisory for motorists to check their windscreens for chips and cracks following the recent hailstorm. Chips and cracks can widen suddenly without warning, so it is best to get them attended to as quickly as possible.

Thomas, a company representative said, ?Following the massive 50° temperature drop earlier this month, many vehicles were hit by golf ball sized hailstones. Motorists may now find small cracks developing, and this can become a much bigger problem in the future if left unattended. If chips or cracks radiate in several directions or are near the edge of the windshield, we recommend immediate attention. Also, give us a call if you find two or more cracks or chips?or a single crack longer than three inches. It?s better to be safe and install a new windshield than take the risk of injury and further damage.?

The family owned and operated auto glass repair shop is celebrating their 20th anniversary next year, and take pride knowing their customers are 100% satisfied with their service before they leave their shop. Simply call windshield repair Dallas for a free quote?they are one of the most affordable repair companies in the region. They provide top class service for any type of vehicle, including cars, trucks, RVs, and heavy

equipment.

This is backed up by their what their customers say online too. Earlene Webb recommended them on Facebook, saying, ?This business is A+. They have excellent customer service. I had the opportunity to get served by the "Best" Auto Glass replacement company in Dallas. It was timely and there was no hassle over cost. I will tell everybody I know about Jacobs Low Price Auto Glass on Highway 310. Excellent service and guaranteed customer satisfaction.?

Another customer, Mark S. gave them top marks in his Yelp review, saying, ?Wow. Really low price?nobody can beat these guys! They did an absolutely perfect job! Installed new windshield, re-attached the mirror, re-glued every sticker. Like nothing happened! Highly recommended, well worth the drive!?

Thomas said, ?We love seeing feedback from our customers online; it makes them feel like part of the family. We understand that there is never a convenient time to have a broken or damaged windshield or have your car windows replaced. We make it our goal to get them fixed by someone you can trust to get it done correctly, quickly, professionally, and at a reasonable cost.?

Notably, many drivers are unaware that their windshield provides about half the support strength in a rollover accident. Airbags are also designed to deflect off the windshield. If the windshield fails, or pops out due to improper installation, every person in the vehicle loses that protection when it is needed most. For this reason, most insurance companies will insist on replacing a windshield rather than repairing it.

Those looking for the best value for money and cheap windshield repair will appreciate that the company provides high-quality replacements at the most affordable prices in the Dallas Fort Worth area. As they boast a huge in-shop inventory, they are likely to have any model needed, which enables them to provide same-day replacement for most customers. Learn more here: Cheap Windshield Repair Dallas.

Thomas added, ?Over the years, we?ve fixed just about every type of windshield and window imaginable. We know how to work with all major insurance companies to help our customers? claims proceed smoothly. Giving our customers a lifetime warranty on our auto glass and windshield installation against water and air leakage is our way of saying thanks for the trust they place in us.?

Those who have found their windscreen has chips and cracks are urged to make an appointment to get replacements before further cold snaps and hail cause additional damage. The company's website hosts more information on their services, including further contact information. Interested parties may also contact Thomas of Jacobs Low Price Auto Glass to make further inquiries. Those on social media are invited to follow them on Facebook to stay in touch with their latest news and announcements.
