Faith Auto Glass Dallas

Windshield Repair & Replacement in Dallas TX

Lowest Windshield Replacement Cost Now Offered In Dallas

October 17, 2019

DALLAS, TX - October 17, 2019 -

Jacobs Low Price Auto Glass Dallas would like to make Dallas car owners aware of the company?s low prices for windshield replacement and windshield repair. With one of the largest in-shop inventories of auto glass, Jacobs has the resources necessary to provide both the highest quality glass and the best prices in Dallas. This makes finding good glass for low prices easier for their walk-in customers as well as those in need of quick repairs.

?We understand that there is never a convenient time to have your windshield or car windows broken or damaged,? says the company. ?It is our goal to help you get them fixed quickly, professionally, and at a reasonable cost.? Jacobs works with all major insurance companies for those that have their auto glass covered by insurance; however, they can often do the repairs for much less than the client?s deductible.

Following a windshield repair by Jacobs, one?s windshield will look exactly the same as it did before the damage was done unless the owner has put on an aftermarket tint. The team of professional mechanics and technicians at Jacobs strives to ensure that the replacement windshield matches the factory installation as closely as possible. Factory electronics like heated windshields and built in antennas are also included with

the replacement.

?Don?t risk your safety and those of your loved ones by driving around Dallas with a cracked or poorly installed windshield,? the company states. ?A damaged windshield is much more of a hazard than simply obscuring your view or becoming a distraction. Airbags are designed to deflect off the windshield. If that auto glass fails, or pops out due to improper installation, you lose that vital protection. Furthermore, an intact windshield is an important part of your car?s structure, typically providing around half of the support strength in a rollover accident. In many cases insurance companies insist on replacing a windshield rather than repairing it.?

One should seriously consider a total replacement of their windshield if it has any of the following: chips or cracks around the edges of the windshield, cracks longer than 3-6 inches, cracks that spread out in multiple directions, or more than two or three cracks or chips. Even the most profit-driven insurance company understands and recognizes the need for the total replacement of a damaged windshield, as leaving it for too long or not putting adequate resources into the repair process can result in serious damage to the vehicle or injury to its owner in the future.

Jacobs relies on a team of experienced and highly trained staff who make use of all the latest techniques and tools in the trade to promptly complete every repair job their clients bring them. The company takes steps to provide them with whatever equipment and special tools they need to remove and replace auto glass with no damage to the client?s vehicle. For extra convenience, Jacobs offers to go to the client instead of them visit the company?s repair shops. As their site states, ?For extra convenience, and to save you time, we can come to you, whether that?s at home or while you?re at work. That also saves you the hassle of arranging drop-off and pick-up. Your vehicle will receive the same quality materials and workmanship as in our shop. Quick-curing adhesives and sealants mean that your vehicle will be ready to drive about an hour after we?re done.?

Jacobs Low Price Auto Glass has been providing high quality service in the Dallas area for 20 years, having opened their doors in 2000. The company is family-owned and operated and has, over the years, worked on almost every type of vehicle imaginable. This experience has allowed the company to grow and evolve into the one-stop glass repair and replacement shop they are today. ?It is our goal to deliver the best repairs, at the best prices, with 100% customer satisfaction guarantee,? says Jacobs.

Dallas residents looking for windshield repair or replacement are encouraged to contact Jacobs today. Find out more about the company at the following link: Windshield Replacement Cost.
