

Superior Towing Unveils Better Towing Service in Des Moines, IA

October 17, 2019

October 17, 2019 - PRESSADVANTAGE -

Superior Towing has announced that its newly revitalized towing service in Des Moines, IA is now fully available. After embarking on a company overhaul to upgrade and rebrand its services, the company has once again opened its doors to the public on August 28, 2019. The revamp consisted of improving customer experience, upgrading its tow truck facilities and launching a refreshingly new website.

The company representative, Cyrus Sutherland, says, "Our brand enhancement strategy reflects our commitment to improving our towing services for the people in Des Moines, IA, and its surrounding areas." The company is making its services available to communities within Des Moines such as Dohalice, Lodin, Zelkovic, Vrchovnice, Freihofen, Svobodne Dvory, and many more areas. The full listing of their service areas can be accessed here: <http://gmbp.in/u/5da8d29ddf210>.

Des Moines is the most populous city in the U.S. state of Iowa. Thus, there are also many vehicles traveling on its roads regularly. Every August, more than a million tourists visit the city to attend the Iowa State Fair. The city is also known to have slick roads during the winter season. This is why emergency car problems and road slips are very common. Superior Towing helps locals as well as visitors in and around the Des Moines

area for roadside assistance and emergency towing. Sutherland adds, "It has been a privilege to serve Des Moines and its nearby communities for their towing needs for more than a decade. We are further improving our services as a gesture of our commitment to the Heartland of the West."

Superior Towing Company is reputed for its superior towing services. They use cutting edge towing trucks and equipment and hire only the best towing professionals in the area. The company is fully insured and bonded to ensure that customer's vehicles are protected from damaged during towing. The company also provides long distance towing which involves transporting vehicles such as sports cars and other similar vessels in long distances. Their roadside assistance services are designed to help stranded drivers with urgent situations such as flat tire, drained batteries, or empty fuels among others. The company is also familiar with all the auto mechanics shops around Des Moines where they can haul a broken-down vehicle for proper repair. For more on their services, kindly follow this link: <http://gmbp.in/u/5da8d220b3a06>.

In keeping with the company revamp, a new corporate website was also launched. The website offers customers and site visitors with up-to-date information about the company's services, press releases, specials, and other valuable resources. The user-friendly website also features an online contact form through which customers and the general public can leave messages, send inquiries or create reviews about the company.

"The new website features a spanking new design with improved functionalities focused on the company's recent developments which are valuable to previous and prospective customers," says Sutherland. "We are dedicated to boosting our transparency and increasing our interchange with the driving public." He adds, "We are urging the public to visit and explore our website. We will also appreciate any message or feedback from the people." He says that he is very much satisfied with the way the new website helps present information about their tow truck services, roadside assistance services, promotional discounts and news updates in a more efficient and organized manner.

Overall customer experience is another area in which the company wants to stand out. It is giving its customers unmatched customer experience face-to-face in the delivery of their towing services and over the phone with its dispatching units. Sutherland says, "We want our company to have a brilliant reputation for customer service. We will provide our customers with the best possible experience across all parts of our business operations."
