

Wally's Towing Leaps Forward with Better Towing Service In North Las Vegas, NV

October 18, 2019

October 18, 2019 - PRESSADVANTAGE -

Wally's Towing has taken a big leap forward with the official launch of its newly improved towing service in North Las Vegas, NV. The company has broadened its emergency towing and roadside assistance services to those in and around the North Las Vegas region including Boulder City, Erie, Mountain Springs, Desert View Point, Kyle Canyon Summer and Mount Charleston, to name a few. A complete listing of their service areas plus zip codes can be found here: <http://gmbp.in/u/5daa17a3c48e4>.

John Lawson, a representative for Wally's Towing says, "Now that we got our newly expanded services off the ground, your support to our new venture will surely be much appreciated as we look forward to helping the community. We will give the people in North Las Vegas the finest tow truck services."

The full operation of the company's expanded services kicked off last August 28, 2019. Their head office is located in North Las Vegas, Nevada. Since launching, Lawson says that a few locals have already availed of their tow truck and roadside assistance service including car lockout services and fuel delivery options.

"We are back to serve you 24-7," says Lawson. "We would like to inform the people that they can reach us

at (702) 763-6498. Give us a ring and our dispatchers will answer your call and send a tow rescue team for any emergency road problem. We want to assure the people that they can trust Wally's Towing for 24-hour help when they get stranded along the road.

The company representative adds that the towing company has also just launched a newly designed website he believed will be a huge benefit to customers and the driving public. It is an important resource for people looking to explore everything about Wally's company and its services. Some articles about the services provided by the company can be found at <http://gmbp.in/u/5daa16e76e652>.

"This is the soundest website we ever had," Lawson says during the simple launch celebration. He also emphasized that the website is fresh and easy to navigate, and very easy to find all the information you need to know about the company. Lawson presented certain features of the website including detailed information about their different services, contact information and reviews from previous customers.

"The positive feedback we have been receiving is not that surprising," says Lawson. He says, "We go all out to serve the people in North Las Vegas." From prompt phone reply, quick arrival, fast service delivery to our pricing policies, we make it a point to make our customers our top priority by always considering their needs and wants.

Lawson says "We have since adopted straightforward pricing policy when it comes to our services. We simplified billing and eliminated undefined surcharges and hidden fees." The company's honesty in their price quotes makes them affordable. Once the full evaluation of a customer's needs is achieved, a final quote is immediately established which is absolute and fixed. Thus, customers need not worry about additional surprising fees that often appear to the bill once work has been completed.

Lawson further announces that their website contains information about discount specials or promos that the company offers now and then. He encourages people to regularly visit the company online to learn more about them. An online contact form is also available on the website which customers can use to schedule a service, make inquiries or send messages. However, those who need emergency towing are advised to dial the company phone number for faster response and transaction.

Lawson says, "I would like to thank the people in North Las Vegas for keeping our services the number one brand in town. We dedicate our expanded services to our customers who made us successful. Your satisfaction will always be our chief concern as we promise to stay reliable as always." Those interested to reach out to Wally's Towing can contact the company by phone or email at any time or visit their website here: <https://www.wallysgarageandtowing.com>.
