

## **Introducing The Premium Stethoscope, With Elite Quality To The Cost-Conscious Masses**

*August 03, 2015*

August 03, 2015 - PRESSADVANTAGE -

Santa Clarita, California -- Starting this month Passionate Care LLC introduces its new elite stethoscope to the masses. The new stethoscope carries many of the same high quality features that you expect to find in a high end stethoscope but at half the cost. Stethoscope reviews have been pouring in stating they will no longer overspend on the high cost stethoscopes; especially when they get the same professional quality that they require in the new Passionate Care stethoscope.

?My old stethoscope was a two hundred dollar cardiology stethoscope and I was shocked to find that the quality of this new stethoscope easily rivaled it,? stated Theresa a sub-acute nurse at a major Los Angeles hospital. ?The normal brain is trained to think that more expensive is better. Our past experiences often teaches us that this is true. Not the case here. In fact I am still having a hard time wrapping my head around how little I paid for this stethoscope. I?ve been singing praises about it and three other nurses on my unit have already purchased theirs. You have a user for life!?

Passionate Care created and released this stethoscope after reading stethoscope reviews and how healthcare workers easily lose their stethoscopes. The most often complaint was that it cost too much to replace a quality stethoscope. This impediment causes most nurses to bypass purchasing a new one and instead use hospital disposables.

According to professionals the problem with the disposables stethoscopes is that sound quality is so poor that it could easily be a cause for missing early warning signs in patients. Passionate Care LLC saw this as a concern for patient safety. By introducing nurses to a stethoscope that they could afford as well as be proud of, Passionate Care LLC believes that improved assessments would be a viable outcome. Good nursing assessment often leads to a reduction in hospital stay as well as saved lives.
