

## **Apex Pest Control Now Eradicates Pests In Royston And Barnsley**

*October 28, 2019*

October 28, 2019 - PRESSADVANTAGE -

Cudworth, Barnsley based pest control service Apex Pest Control - Barnsley is pleased to announce that they now offer their services in Royston, South Yorkshire. The company provides a variety of pest control services to customers in Sheffield, Barnsley and Leeds.

Tony Johnson, owner of Apex Pest Control and pest control expert, says, "I started this company back in 2016 when I decided to move back to my roots in Sheffield. With 30 years of experience and the well-placed faith of my former clients, Apex Pest Control has swiftly become an essential part of the local community because everyone knows that you simply can't have pests in your home. So far, we have been providing affordable quality pest control services across Sheffield, Leeds, Barnsley, Rotherham and North Derbyshire. Now, we're extremely happy to be able to say that Apex Pest Control also operates in Royston."

Tony Johnson's qualifications in pest control come from over 30 years of personal experience in the field. Having originally trained with The Royal Society of Health and The British Pest Control Association, Tony previously ran a pest control business from the late 1980s up to 2012, before following a different path in the management of forestry in Scotland. He returned to work in pest control again with his own company.

"At my company, our aim as a pest control business is to deliver exactly what we promise to do," says Johnson. "Whatever your problems, we'll be there on time and with the tools necessary to take care of it. As a company, we value the trust customers place in our services, and aim to treat each and every one of our clients the same way we would expect to be treated."

The company asserts that they can take care of a variety of pests, including bed bugs, black ants, cockroaches, feral pigeons, fleas, squirrels, honey bees, mice, moles, rats, wasps, woodworms, and more. Apex Pest Control offers their services to domestic homeowner clients, commercial business clients, and agricultural and forestry clients. For each of their clients, the company provides a custom-tailored solution that takes their unique circumstances into account. Residential plans are designed to deal with common pests such as cockroaches, bed bugs, birds, ants, and wasps (with modifications made to deal with other pests if needed). Commercial plans take the property itself into account, especially if it hosts businesses like restaurants and cafes. Here, Apex prioritizes rodent control due to the presence of food on the premises.

"My experience and expertise in the subject makes Apex Pest Control the best option if you want to rid yourselves of pest problems," affirms Johnson. "My company is a member of NPTA (National Pest Control Association), BMCR (British Mole Catchers Register), and CHAS (The Contractors Health and Safety Assessment Scheme), which makes us professionally suited to deal with vermin of all kinds. If you have any pest issues at all, feel free to get in touch with us and we'll be there in a flash."

The company's quick and effective methods of clearing out pests has earned them a sterling reputation among the local community. On Google, the company is rated a full five stars. Pamila Misnick says in her review that the company, "Did a fantastic job getting rid of bed bugs from my property; the house had been left needing a deep clean and pest control services to remove bugs. They are quick to respond and do top quality work. I highly recommend them!" In another review, Pete Hogg, a Google Local Guide, says, "Wasp nest was treated efficiently; there was a prompt call out and they removed the wasp nest. Brilliant service, highly recommended!"

Similarly, customer Kerry says, "I phoned in an absolute desperate state, with hundreds of wasps flying around my bathroom. There was a massive nest in my wall cavities. Apex came out within the hour. The problem was sorted almost immediately. Excellent customer service and rates. Would highly recommend them!"

Apex Pest Control - Barnsley also has a five star rating on Yell.com, UK's leading online business directory. Tony J. says in his review that the company provides a, "Fantastic pest control service; called Apex Pest Control and they came out the same day. There were no hidden charges and they got rid of the bed bugs after treating both bedrooms. Highly recommended!"
