

FacebookFSBOKit.com Introduces For Sale By Owner Services

August 04, 2015

August 04, 2015 - PRESSADVANTAGE -

FacebookFSBOKit.com, a business which began by guiding real estate professionals on how to sell listings, is now offering their successful tools and techniques to homeowners who want to sell their homes themselves. The for sale by owner (FSBO) kit includes all that is needed for a successful home sale.

Andrew from FacebookFSBOKit.com says, "Just having your home posted on an MLS sites like zillow.com, fsbo.com or forsalebyowner.com simply isn't enough to get your property noticed. All it does is create a page for you, one of thousands of pages out there. What we do is make sure that you get noticed in that huge bunch."

Through FacebookFSBOKit, people can access a full service site. This includes important features such as how to value a property, how to prepare for a home showing, how to take photographs of a property, how to use feedback, how to pre-qualify potential buyers, and how to actually negotiate with a buyer. In doing these things correctly, the chance of making a successful sale is greatly increased.

To achieve this, FacebookFSBOKit has found that Facebook is a vital tool. This is why they use Facebook

very strongly themselves, as can be seen on their FSBO Kit facebook page. They have figured out how to optimize the Facebook Advertisement system for their clients, essentially allowing them to target real potential buyers for their properties. The company has taught these techniques to realtors for some time and this has been shown to be highly successful.

"We want to show individual people the tools and secrets that realtors have been using for years in order to sell their property," adds Andrew. "This means people can save a lot of money on commission as well, which is a fantastic added benefit."

Those who are looking at selling their properties are encouraged to contact FacebookFSBOKit. This will allow them to see how the tools, techniques, and other strategies can help people maximize their chances of making a sale and gain a competitive edge over the thousands of other home sellers and realtors.
