

Leading Leduc Roofing Firm Receives Top Marks In Another Delighted Customer Review

October 25, 2019

October 25, 2019 - PRESSADVANTAGE -

Edmonton, Alberta based DDCL Roofing & Maintenance is delighted to share another customer review that gives them top marks for their work. The company is one of the highest rated roofing contractors in Edmonton, Leduc and nearby other communities. The latest review mirrors feedback from as far back as three years ago, where a customer said, "They are highly professional and do their job perfectly."

The consistent high levels of customer feedback provide independent testimony to the company's high standards and service orientation. Daniel Foulkes, CEO of DDCL, stated, "We love receiving customer feedback and, if there is a problem, we hope our customers will come to us first so we can fix it. We hope that everyone will be honest and frank in their reviews, and we are grateful to each and every one of them for taking the time out of their busy days to highlight the difference we make."

The latest review by Anne Nixon on Google, gives the firm top marks, saying "We are impressed with the thoroughness of their work. Extremely satisfied and would not hesitate to call them at any time. They go above and beyond." Interested parties may read the new review in full and leave their own feedback here: [DDCL Customer Review](#).

The top-tier roofing company has over 15 years of professional roofing experience, and can handle the smallest repair through to the largest roofing/reroofing project for residents, commercial enterprises, and agricultural clients. Due to the humid continental climate, residents and property owners often need to see to their own safety and those of their family, employees, and customers by ensuring that their roof is in tip top shape.

The company provides a comprehensive and all-inclusive service, sourcing the best quality materials and state-of-the-art equipment. They can supply asphalt shingles, cedar and wood shakes and shingles, metal roofing, clay and slate tile roofing, PVC, EPDM, and more.

On their website, DDCL highlights the danger signs that those with asphalt shingles should look for (which show that their roof is not protecting their home as it once did). These signs include warped flashing, nails which are lifting above the shingles, broken or lifted shingles, ice building up on the last foot of the roof, shingles curling up, and so on.

The company also provides one of the best roof maintenance plans, helping prevent minor issues from becoming bigger problems, thereby helping keep their customers' roofs in tip top shape. Those looking for a personalized roofing service in Edmonton or Leduc will appreciate that DDCL will leave no stone unturned and never back away from a challenge to make sure that their customers are 100% satisfied with their work.

The company was recently featured on Street Insider, a leading online news site, in an article that highlighted their diligence to making sure their customers get the service they need. The article pointed out that DDCL fixed a few minor problems they discovered over the course of their work painting a customer's townhouse. Learn more here: [Roofing Leduc](#).

The article also highlights the company's 24/7 emergency coverage, a boon for anyone caught in a roofing emergency. Foulkes stated, "We often meet our customers during one of the most stressful moments of their life. Due to this, we aim to be there as soon as possible and avoid making a bad situation worse. We recently launched a new website that enables our customers to call us directly through any internet capable device."

The company provides free-of-charge estimates that help their customers understand the full extent of the investment they will have to make to engage the company's services, including labor and material costs. Furthermore, they guarantee there are no hidden charges. Foulkes concluded, "Our integrity is important to us. It builds trust with our clients, whose loyalty is the best recommendation we have."

DDCL's website provides more details regarding their services, which include roofing, residential property maintenance, remodelling, and more. Customers may contact Daniel Foulkes to make any inquiries about the

roofing company, or connect with DDCL through their official social media pages to learn more. Additionally, customers may drop by the company's Edmonton premises to discuss their home remodelling projects in person.
