Hamilton Roofing Company Announces Another Five Star Review

October 25, 2019

October 25, 2019 -

Straight Arrow Roofing, a business based in Brantford, Ontario, Canada, has announced that they have receive another rave review. The homeowner who posted the five star review is Allan S., who had his roof repaired after it was damaged by a wind storm. Allan was amazed by the workers? attention to detail and the courteous way in which they dealt with their customer. What is more amazing is that while the customer is often reluctant to write reviews, he felt it was necessary to put down in writing what he felt about the kind of service that he received.

In his five star review for Straight Arrow Roofing, Allan S. said, ?I had repairs done to my roof by Joel and his expert team at Straight Arrow Roofing after a wind storm took-off a chunk of shingles. From the time I called his office, the communication was quick and courteous. The workers arrived the next day and completed the work efficiently and with quality workmanship. While they were on my roof, they identified a deficiency left by the previous contractor and fixed it without any extra cost. They showed me before and after pictures and I was more than satisfied with their work. Their attention to detail and courteous demeanor were very much appreciated. They cleaned-up all the old shingles and nails, leaving my property clean, as if they had never been there. Great work gentlemen. When I need a full roof replacement, you will be my only call!?

In response to the highly positive Straight Arrow Roofing customer review, Joel Guerra, founder of the company, says, ?We are certainly excited and very pleased to have received another five star review. It means that our customer was satisfied with our work and can have peace of mind that his roof will continue to provide protection for his home and family for a long time. Naturally, we?ll continue to do our best to serve our customers and always strive for excellence.?

Straight Arrow Roofing is a full-service roofing contractor that offers solutions to all kinds of roofing problems. They have expertise in roof inspections, roof leak repairs, siding installation and repairs, gutter installation and repairs, flat roofing, and soffits and fascias.

They want to emphasize the importance of roof maintenance and that includes regular roof inspections. They recommend having the roof inspected at least twice a year so that timely action can be done if there are any problems. If possible, homeowners can try to take a look at their roof from the roof of their neighbour?s house so that they can get a true perspective of its condition. They can check if there is any vegetation on their roof, like moss within the gutter. This can cause some problems by obstructing the passage of water through the gutter. Moss is also always damp and this can cause damage to the roof during winter. Better still, homeowners may want to seek professional roof inspection services to make sure that all potential problems can be avoided.

If a roof leak is discovered, it is always a good idea to let roofing professionals do the roof repair work. Also, the roofing professionals would know whether a roof replacement would be a better alternative. There are number of indications that the roof needs replacement. These include a roof that is more than 20 years old; obvious damages to the roof; the presence of valleys on the roof; presence of folding and twisting shingles; missing shingles; and gutters filled with shingle granules.

The company also provides siding installation and repair. They are capable of replacing any existing siding with products that are Energy Star certified. This will not just make the home look more attractive but also more energy efficient as well as maintenance free.

The company serves the areas of Brantford, Hamilton, and Cambridge. Those who are interested in a reliable Hamilton roofing company can visit the Straight Arrow Roofing website or contact them through the phone or via email.
