

Mr. Chem-Dry Announces That Customers Can Now Schedule Carpet Cleaning Online

October 28, 2019

October 28, 2019 - PRESSADVANTAGE -

Mr. Chem-Dry, a carpet cleaning services provider in Centerville, Utah, has announced that customers can now schedule Utah carpet cleaning online. For those who live in Davis, Weber, or Salt Lake county areas, getting clean carpets is now just a few clicks away. They want to point out that people can use the website's online scheduling feature. They also want to emphasize that having carpets cleaned regularly is one of the best ways to ensure that the carpets will have a longer life.

Daryl Olsen, president of Mr. Chem-Dry, says, "We're happy to announce that we have made it even easier for homeowners and property owners to get their carpets cleaned. They can now set a schedule online."

He continues, "When you're looking for local carpet cleaning, you can count on us. We're a professional carpet cleaning service that provides a deeper, longer lasting clean and a healthier home. Our customers in the communities that we serve have become long-time, satisfied clients. You can trust our professionally-trained, hard-working and friendly technicians to understand your specific needs and provide a cleaner, healthier home for you and your family."

Mr. Chem-Dry had developed the Natural® Chem-Dry proprietary cleaning solution that is capable of providing deep down cleaning of the carpet without the use of any harsh chemicals or detergents that can be harmful not just to the environment but also to the health of people. Furthermore, Natural® Chem-Dry uses 80 percent less water, which means that the carpet, upholstery and rugs will be totally dry in just one to two hours rather than the usual several days needed for other solutions. It is therefore a relief that Utah carpet cleaning online scheduling is now possible to get those carpets cleaned and better maintained.

The carpet cleaning procedure of Mr. Chem-Dry is not just safe but it is also Green Certified. The company makes use of a truck mounted unit to heat up their proprietary cleaning solution to 230 degrees and then it is applied with the PowerHead Machine® with patented Amplified Extraction, spinning, gliding, and sucking all of the dirt and debris.

In addition to the carpet cleaning services, Mr. Chem-Dry also provides other services. These include granite countertop restoration, rug cleaning, green cleaning, upholstery cleaning, water damage cleanup, pet urine removal treatment, and tile cleaning. As mentioned above, the company specializes in green cleaning. Their cleaning process does not make use of soaps, phosphates, detergents, organic solvents, surfactants, enzymes, optical brighteners, fragrances, bleaches, polymers, plastics, artificial colors, thickeners, and petroleum-based chemicals that can be harmful to streams, forests, lakes, the air, and to human beings.

Meanwhile, rug cleaning is in a different kind of category from carpet cleaning. This is because rugs are a bit different from carpets. This is because they are often placed in those parts of the home where people frequent, which means that rugs are stepped on much more frequently than carpets. Thus, they tend to get shabbier and dirtier than carpets. And while the cleaning procedure would be basically the same as the one used for carpets, rugs will need some extra care. This is no problem with Mr. Chem-Dry professionals who have the knowledge and experience of cleaning various kinds of rugs, including the delicate and expensive Persian and Oriental rugs.

Upholstery cleaning is also provided by Mr. Chem-Dry and it should be noted that upholstered furniture will tend to be even dirtier than carpets because of people and pets. These furniture, particularly those that are porous, will have absorbed a lot of things like dirt, grime, sweat, pet urine, pet fur, and other kinds of debris, making them very dirty and unhygienic. The usual cleaning of the furniture will therefore not suffice in getting rid of all those things. That is why the cleaning process used of Mr. Chem-Dry is very much needed for upholstered furniture.

Those who want to know more about the carpet cleaning services offered by Mr. Chem-Dry and want to schedule carpet cleaning online can go to their website, or contact them on the phone or via email.
