

## **Newport Beach Plastic Surgeons Share Patient Success Stories**

*October 28, 2019*

October 28, 2019 - PRESSADVANTAGE -

Newport Beach, California based plastic surgeon Dr. Aaron Kosins, the lead practitioner at the Aaron Kosins MD cosmetic surgery center, has shared some of his most recent success stories with his patients. Dr. Kosins is one of the most experienced and successful cosmetic surgeons in Newport Beach. He attributes part of this success to his commitment towards determining his client's wishes and working alongside them to develop a strategy to address their concerns.

The clinic already boasts an impressive reputation in the area for the quality of their work and their dedication to ensuring their clients' satisfaction. However, they note that certain factors may cause people to stop themselves from seeking the corrective procedures they desire. In light of this, Dr. Kosin and his staff hope that describing the positive impact that cosmetic surgery can have on a person's life, and how it can help them regain their confidence and peace of mind, can encourage others to take the first step on their own journey with the clinic.

One of their most recent success stories, showcased on the center's website, narrates the case of Gael Smith, a recurring patient of the practice who recently sought a lip augmentation. He says, "I have been

seeing Dr. Kosins over the last couple of years. He has helped me rejuvenate my look in a very natural way. It looks absolutely amazing. I am very happy with it. He also has other procedures to 'enhance' my look, which I love."

Patients like Smith demonstrate the wide positive impact that cosmetic surgery can have on a person's life, and Dr. Kosins states that the purpose of his practice is to elevate their patients' confidence and self-esteem. Smith also described how he has received several compliments for his new 'enhanced' look, and how he always responds to these compliments in the same manner, with a simple smile, and thoughts of gratitude towards Dr. Kosins.

Since their founding, the clinic has gone from strength to strength under the leadership of Dr. Kosins, a highly skilled cosmetic surgeon with a wealth of experience in the field. He constantly takes measures to ensure that his abilities are honed at the cutting edge of the field of plastic surgery, both in terms of technique and principle. Dr. Kosins has stated on multiple occasions that the most important part of his job is communicating effectively with his patients, determining the solution that they desire, and developing a strategy to address their goals in the most effective way possible.

"My philosophy is to listen very carefully to the wishes of my patients, as we form a team who share the same goal," states Dr. Kosins. He adds that, "Patients often need guidance and reassurance the most when they consider undergoing plastic surgery. It is my duty to advise them and provide expert insight on these matters before they decide to move forward with any procedure. Very few Newport Beach plastic surgeons recognize this, but guidance and qualified advice are key to ensure a satisfactory result for our patients."

Dr. Kosins states that he maintains an open door and welcomes patients to consult with him before they make a final decision regarding their procedures, as determining their exact goals is of the utmost importance. His approach towards cosmetic surgery has earned him the recognition of many prestigious outlets and organizations in the field of plastic surgery. As a result he boasts a reputation for being one of the best plastic surgeons in Newport Beach due to the progressive techniques that he employs and the conscientious care he offers his patients.

The Aaron Kosins MD Center provides a complete list of services, including Breast Augmentation, Breast Lift, Body Contouring, Liposculpture, Primary and Secondary Rhinoplasty, Facial Aging and Rejuvenation Treatments, Botox and Fillers, and Skin Health Treatments.
