

Scottsdale Golf Club Takes Strides To Help Members Develop Their A-Game

October 28, 2019

October 28, 2019 - PRESSADVANTAGE -

The Country Club at DC Ranch in Scottsdale, Arizona is pleased to share the success of their members only event on Friday and Saturday morning (October 18/19th) as they reopened their renovated course. Many players took the opportunity to enjoy their rounds and find out more about the new facilities and other club events.

Speaking on behalf of the club, Director of Sales and Marketing Melanie Halpert stated, "We are delighted that members, new and existing alike, came together to enjoy the event and help make it a success. Many took advantage of the opportunity to bring guests along on Saturday afternoon to enjoy one of the toughest courses we have ever built amid our spectacular scenery. It's definitely the place for members to develop their A-game, and they are welcome to enjoy the facilities afterwards."

The club was recently featured on the WRCB TV news site in an article that highlighted the remodeling and renovations carried out on their practice park, which now addresses every possible requirement that their esteemed patrons have. Those looking to improve their game will appreciate the full extent of the renovations as well as the updated facilities at the learning center and other facilities in the complex.

There are two short games greens (which can be used for pitching, chipping, greenside, and fairway bunker practice) that the club is sure will turn out to be very popular with members and guests. The club also improved the courses' turf areas, using 328 Bermuda grass for better playability and color.

The Scottsdale golf club has been a favorite for golfers since their launch in 1997, with clubhouse facilities that have grown to accommodate the needs for virtually any type of golfer. Their Hacienda Clubhouse provides upscale dining with the warm and friendly Southwest atmosphere that many have fallen in love with. The Hacienda Clubhouse is also a very popular venue for wedding ceremonies and receptions, with an enchanting old world charm and romantic setting in their Courtyard. It is truly a full scale country club, bringing together those who love their golf, tennis, swimming, and fitness with an unprecedented social calendar that enables them to enjoy quality time with their families, friends, and colleagues in the exclusive setting.

Their members have shared many glowing reviews online that reflect the club's warm and inviting atmosphere. One of their members, Tonja H., reported that they, "Just can't say enough great things about this club, from the staff to members and to all of the ladies that have welcomed our daughters to play right alongside of them! Special thanks to Dick Hyland for working with our girls to become all that they can be in golf and beyond. Everything about this club is truly amazing. Thank you!"

Another member, Mark K., said, "The Club's greatest asset is its members. From the time I joined the club, I was welcomed into golf groups and dining groups, and made dozens of friends. Everyone gets along, everyone laughs, and no one thinks they are "special." The staff is incredible! Everyone is treated with respect, and these well-trained people are there when you need them without interfering in anyone's enjoyment of the club. Members and staff are a relaxed compatible group of people who just want to have fun together in a safe and friendly place."

The club takes pride in looking after their members, and they have recently updated their policies to ensure that members and guests can enjoy the facilities with more freedom. This is reflected in their Membership opportunities and is not limited to those who own real estate in the DC Ranch. Melanie Halpert continued, "As the Country Club has expanded, we have adapted our offerings to help everyone enjoy the sports they love and have access to all the activities and social facilities they desire. We opened a new pool and fitness center with on-demand classes. There's no need for the family to miss out on the fun as they can enjoy the day and evening while those who love golf and tennis develop their A-games."

Those interested in learning more about The Country Club at DC Ranch, or who would like to book for a special occasion can visit their website at <https://www.ccdcranch.com/>. Through the club's website, visitors can browse the various services and amenities on offer, such as golf, catering, dining, tennis, weddings, and
