

Northbrook Dentist Ready To Welcome New Patients Ahead Of The New Year

November 12, 2019

November 12, 2019 - PRESSADVANTAGE -

Northbrook, IL based Northbrook Dentist Office is calling on their patients to schedule their dental appointment ahead of the holidays. As the end of the year approaches, the clinic asserts that this is a great time for people to get their dental obligations out of the way. As such, they are standing by to take calls from patients who wish to schedule a quick appointment in the coming weeks.

As people around the country get set for the holidays and merrymaking, this can give many who have been putting off a visit to the dentist a golden opportunity to beat the crowds and get their oral health assessed by a professional. Furthermore, the holidays are well known for bringing with them a host of holiday-themed foods, which more often than not take the shape of sugary goodies that can affect a person's teeth over time.

Whether an appointment is made before, during, or after the holidays is often not as relevant as actually attending the appointment. Given that it will likely be more than six months since the patient's last appointment, a visit will give their dentist the chance to look over their teeth and check nothing is going awry. To this end, patients of the Northbrook Dentist may avail themselves of a comprehensive list of oral care

options? a large part of the clinic?s services include specializations in general dentistry,. These options include teeth cleaning, tooth extraction, dentures, sealants, composite fillings, root canal therapy, and so on.

Dr. Steven Kacel of Northbrook Dentist Office states, ?Taking care of your teeth is an ongoing process, so don?t forget to get yourself looked at periodically. As good as your brushing and flossing regimen may be, there are other factors to consider when weighing your overall dental hygiene and health. The end of the year, and even the holiday season, is as good a time as any to have that appointment taken care. We?ll help you make sure you face the new year with a blazing, beautiful smile.?

While they look forward to performing routine check-ups or carrying out more advanced procedures, the clinic adds that an appointment can also be made early next year. Parents, for instance, will probably see a huge advantage in getting both their children?s and their own appointments with the dentist out of the way by scheduling a visit during February, especially since the summer and fall months are notorious for being seasons of heavy activity. A little planning today can go a long way in the new year, according to Dr. Kacel.

This is especially true if the patient in question and their family are covered by dental insurance. Unfortunately, many tend to pay for their insurance throughout the year in the form of expensive monthly premiums that go unused in the hustle and bustle that is endemic to the end of the year. This is essentially wasted if they fail to take advantage of it since many dental insurance packages do not carry over into the following year. However, certain insurers may have policies that apply in unexpected ways, so patients are advised to contact their provider to make sure they are making the best of their specific package.

Dr. Kacel continues, ?Your health may not be the only reason you want to visit us. We offer our patients a wide variety of cosmetic dentistry options that can help them achieve that perfect smile they are looking for. If the shape of your teeth, their overall layout, or any other issue has an impact on your self-esteem, we urge you to get in touch with us. Many dental issues can actually be corrected promptly, and we happen to excel at performing such procedures.? The clinic is able to offer their patients teeth whitening, Invisalign, implants, porcelain dental crowns, and many other procedures that serve to improve the aesthetic quality of a smile.

Those who wish to learn more may contact Dr. Steven Kacel of Northbrook Dentist Office to follow up on any inquiries they may have. More information can also be found on their website, at <https://northbrookdentistoffice.com/>, and patients are welcome to get in touch through their preferred social media platforms to stay up to date with the clinic?s latest news and announcements.
