Solana Beach, California based Solana Family Dental is proud to announce that they received yet another glowing review from one of their most recent patients. Maggie Flack, in a Google review, says that the staff at the clinic were, "Gentle. Caring. After waiting 10 years to go to the dentist due to my fear of the dentist, I finally went in with bleeding gums and pain. Dr. Sandler and her staff, including Stephanie, Veronica, Alexis, Liz, and the front desk staff, were very calming, soothing, and let me know I was in control of the experience. My personal costs and insurance costs were explained in detail."

Solana Family Dental is a family-operated dental center that specializes in general and cosmetic dentistry. Owned by a mother and daughter duo, Dr. Sandler and Dr. Kauffman have come together to offer residents of Solana Beach and the surrounding areas with the most advanced treatments and procedures in the field. Solana Family Dental is one of the leading La Costa Dental centers, based on a number of positive reviews and recommendations they have received online. In fact, they have over 691 5-star ratings from various review websites across the web.

One of their satisfied patients, He Zhu, says in a Google review, "I've been going to Solana Family Dental for two years now and I have always loved how friendly and patient everyone is and how they always make it their top priority to make sure your comfort and concerns are met. I do feel welcome like family whenever I go; they know me by name and I'm not just another customer to them. Initially, I came in to get a second opinion on work done by another dentist and I am glad I did because my experience with this clinic was vastly better. I am really glad I found this clinic and I have been back many times since."

Meanwhile, Stacey P. says on Yelp that, "I took a nasty fall, a face plant on asphalt, and my mouth took the brunt of it. Dr. Sandler is my dentist, so I called and told them my front teeth were loose and I needed to get in right away. The terrific staff got me in fast and Dr. Sandler and her assistant were so incredibly gentle with my injured mouth and made a really scary time so much better. I am terrified of the dentist and I'm telling you I would go nowhere else. I wish I had known her years ago. She has a lot of knowledge and such a great personality."
