

Introducing The All New Premium Stethoscope For Nursing Students

August 03, 2015

August 03, 2015 - PRESSADVANTAGE -

Santa Clarita, California -- Passionate Care LLC announces the release of a premium stethoscope for the budget minded nursing students. The Passionate Care brand stethoscope is a high quality stethoscope and is available on Amazon. It is priced at half of its larger competitor and comes with extra ear tips and head membrane.

August is back to school month for nursing schools across the country. It's time for new students to review their school list for supplies, uniforms and equipment. "Most students are working with a limited budget and often purchase inadequate items because quite frankly that is all they can afford", stated Raul Meza, Passionate Care CEO. "The problem is that some of those lower end stethoscopes work better as Halloween costumes than they do as real working equipment. We are solving this problem for nursing students by releasing a higher end quality stethoscope that won't break their shopping budget. On top of that they are going to have the bonus of appearing more professional because your tools often say a lot about you."

The Premium stethoscope comes with the softer ear tips that often accompany the higher end models. The tips create a comfortable seal and allow for a richer sound. The sound quality will provide nursing students with a better assessment experience by making it easier to distinguishing their patient's breath sounds and heart tones.

It comes in lighter than most cardiology stethoscopes due to its aluminum frame. The lighter weight makes it more comfortable to wear and is less straining when carried around the neck as most traditional nurses do. The Premium Stethoscope is a welcoming gift to nursing students and can be purchased on Amazon.
