

One Source Communications Selected as Finalist for 2019 NC Tech Awards Cyber Security

October 24, 2019

October 24, 2019 -
One Source is a finalist for delivering innovative solutions to detect, mitigate and contain cyber breaches or attacks.

Greenville, N.C. - One Source Communications has been selected as a finalist for the NC Tech Awards Cyber Security award. The NC Tech Awards is North Carolina's only state-wide technology awards program that recognizes innovation, growth and leadership in the tech sector and is presented by the NC TECH (North Carolina Technology Association).

One Source specializes in Communications Lifecycle Management, Managed Security Services, Managed Mobility Services, Managed IT Services, and Field Services, all on a fully managed basis. One Source?s

strengths in cyber security come from home-grown expertise paired with unique partnerships. To the latter point, One Source is the first and only certified mid-market firm to join forces with FireEye?, the most prestigious global intelligence-led security company that safeguards Fortune 50 firms, government security agencies and nation-states. One Source also teams with Cofense, the leading provider of human-driven phishing defense solutions, to provide fully managed security-awareness solutions.

In addition, One Source owns three Security Operations Centers (SOCs) ? one in downtown Raleigh, another in Greenville, and one more in Portland, Ore. These assets give One Source even greater ability to provision its cyber security services to mid-market enterprises throughout North America. One Source thrives on serving this often-overlooked segment while boasting many Fortune 500 clients.

?For over 20 years, NC TECH has celebrated companies, organizations and individuals for outstanding achievement at the NC TECH Awards. As a finalist this year, One Source has distinguished itself as one of the state?s innovative and emergent leaders,? stated Brooks Raiford, NC TECH?s President and CEO.

The awards process culminates with the NC TECH Awards Gala on November 21, 2019 at the Raleigh Convention Center where 800+ business, technology and public leaders from across the state will gather to celebrate the tech sector and honor the winners and finalists in each category.

?We are honored and proud to be a finalist in the NC TECH awards for cyber security,? said David Taylor, associate director, managed security services, at One Source. ?One Source continues to stand out as the go-to provider for mid-market enterprises seeking to protect their businesses from hacks and breaches. Achieving finalist status is a testament to our people, processes, and dedication to combating bad actors.?

About NC TECH

The North Carolina Technology Association (NC TECH) is a not-for-profit, membership-driven trade association and the primary voice of the tech industry in North Carolina. NC TECH?s mission is to foster growth and champion innovation in North Carolina?s tech sector, while providing a voice for the tech community through professional networks, government affairs, talent development and sector promotion. About One Source Communications

One Source Communications is an award-winning firm which helps businesses simplify a complex technology world. One Source is the leading provider of Communications Lifecycle Management (CLM) and

Managed Mobility Services (MMS) in North America for mid-market enterprises. The company serves over one million assets and devices for more than 1,000 customers from over 20,000 business locations, as well as operates a 24/7/365 help desk. Headquartered in Greenville, North Carolina, the company has a proven track record for generating triple-digit Returns on Investments (ROIs) through contract negotiation, portfolio optimization, and ongoing telecom expense management. One Source?s clients successfully self-funded One Source?s Managed Security Services and Managed IT Services through savings generated from CLM and MMS. Learn more at https://www.onesource.net.
