Chicago Crane Company Celebrates 50 Years In Business

November 06, 2019

November 06, 2019 -

Chicago crane company Imperial Crane Services (ICS) is celebrating 50 years in business this month. The company has spent the last half century as one of the top manufacturing and heavy equipment companies in Chicago. They have also managed to create quite a reputation for themselves in the construction and infrastructure sector. The staff at Imperial Crane Services are happy to be a part of the company?s legacy, and are proud of what ICS has accomplished since they opened their doors in 1969.

The company is committed to producing the best possible results every time they begin work on a project. As they state, ?Our commitment to excellence is the most integral component in our daily operations. This means that we are dedicated to the highest standards in safety, service and quality. From the receptionist to the foreman, that commitment shows through our remarkable customer service, our state-of-the-art technology and the safest equipment and procedures anywhere in the world. Our greatest resource is our people, and their dedication is what has made Imperial Crane a trailblazer in this industry.?

With constant upgrades to both their equipment and their operation procedures, ICS strives to be the safest crane service company in the world. They have, over the years, received multiple safety awards from

accredited organizations such as the American Subcontractors Association, the Three Rivers Manufacturers Association and the Specialized Crane and Rigging Association. To complement their state of the art equipment and advanced procedures and strategies, Imperial Crane Services employs the most skilled and highly trained people in the industry. All of this put together has resulted in ICS rising far above the competition over the past 50 years.

Chicago residents in need of a crane can find one at Imperial Crane Services. The company has a wide range of cranes from any of the most well-known manufacturers on sale. They offer both new and used equipment for any application imaginable. Read more about crane sales in Chicago on the company?s website.

The company offers many different services in Chicago. ?We are available 24-hours a day, seven days a week,? says ICS. Their sales staff are always available to provide quotes, perform site reviews and help customers obtain accurate information. ICS has in-house estimators with access to the latest programs that allow them to provide crane sizing, quotes and permit expediting. They are available 24/7 to offer alternative lifting methods and equipment, along with cost cutting suggestions.

?Our field estimators will make jobsite visits, prepare site layouts and meet with your project team. They are available to consult with your field staff in order to provide the appropriate equipment needed for any project,? the company states. ?Our fleet is recently purchased, with an average age of three years, and features up-to-date technology. It is well maintained through the use of daily log books, frequent inspections and onsite mechanics. We will provide you with the highest qualified operator that is specifically certified for the appropriate equipment needed on your job.?

A number of customers have worked with ICS and left testimonials praising the company for the high quality work they offer. One review on the company?s website from Bryce Peterson, the director of equipment operations at Wanzek Construction, says, ?I?ve been aware of Imperial Crane Services for the past couple of years from peers in the industry. Imperial Crane Services has a reputation for having a lot of high-quality equipment, so we chose the company for that reason. The wind projects are not the first time we?ve utilized Imperial Crane Services? cranes. We?ve worked with them in the past and will continue to work with them in the future.?

Steve F. Reavis of Erickson Air-Crane Incorporated in a review on ICS? site also praises the company, stating, ?I wanted to send a bit of ?swag? your way, and kindly request you share this with your Imperial team members. If it was not for the effort of yourself, Fred and others, our project at 111 W. Wacker Dr., would have been very difficult to complete. You guys are awesome, and it was a pleasure to meet and work with all.?

Anyone looking for construction crane rentals in Illinois or help with almost anything else construction-related is encouraged to contact Imperial Crane Services today. They may also contact Gina Kaktis to follow up on any further inquiries.
