Jessica Cohen Orthodontics Announces Grand Opening Of New Highland Park Office

November 01, 2019

November 01, 2019 -
IL based Jessica Cohen Orthodontics is extremely pleased to announce the opening of a brand new office in Highland Park. The practice is primarily run by Dr. Jessica Cohen, an accomplished dentist whose experience and expertise in the field spans a wide variety of applications. The Highland Park IL orthodontist invites patients and supporters of all kinds to attend the new office?s inaugural Open House event, where they will enjoy an exclusive tour complete with delicious food, exciting prizes, entertainment, and more.

According to Dr. Cohen, her construction team has been able to execute her plans and vision for the new office with a great degree of accuracy, while maintaining their schedule. As such, she will be ready to welcome all her visitors well ahead of the Open House, which will be held on the clinic?s premises at 1775 St Johns Ave Highland Park, IL 60035. Patients may have heard that the facility will boast state of the art diagnostic equipment and spacious amenities for all who visit, but they will be able to examine this in person (and listen to Dr. Cohen explain how each aspect of the new premises will contribute to their dental care in the future) when they join her on the exclusive tour during the Open House. All family, friends, and members of the community at large are invited to attend.

The Highland Park office grand opening serves another crucial purpose: it will allow those who are considering a new dentist to meet Dr. Cohen in person and learn more about her practice. In this part of the tour, attendees will also receive a complimentary digital scan of their mouth, along with with a simulated orthodontic outcome. This simulation should help them come to terms with some of the procedures carried out at Jessica Cohen Orthodontics, such as Invisalign and other dental techniques that require a 3-dimensional scan of the patient?s teeth.

However, the Open House event is primarily intended to be a celebration of a new start, so attendees will be able to enjoy excellent food and drinks, a live DJ, and so on. Furthermore, parents are encouraged to bring their young children along as well, since a visit to the dentist?s office when they do not need any scary

procedures done may help them accept their treatments with more ease in the future. To this end, Dr. Cohen has taken steps to ensure the kids will enjoy their trip as well. While the Open House will feature colorful decorations like balloons, any children who accompany their parents are sure to spend as much time as they can at the face painting booth that will grace the occasion.

Similarly, adult visitors may take part in the festivities by signing up for the event?s games, raffles, and donations. Many prizes and giveaways can be won here, and the raffle will give lucky winners the chance to opt for a free braces or Invisalign treatment, as well as free teeth whitening. Notably, all proceeds from the raffle will be donated to the MRW Leadership Board?s Jammin? in our Genes benefit, whose goal is to educate and empower people to make informed decisions that will help them prevent hereditary breast and ovarian cancer.

Prospective patients who cannot attend the event may learn more about Dr. Cohen and her practice by browsing their online reviews. For instance, Kelsey Hilton says in their 5-Star Google review that, ?I highly recommend Dr. Jessica Cohen for your orthodontic treatment. This orthodontist is fully committed to making you happy! She goes above and beyond during your whole orthodontic journey and gives beautiful results! Her attention to detail and customer service stand out above all others!?

Hilton continues, ?She even offers free consultations and insurance verification, which is definitely one less source of stress I need to worry about. Dr. Jessica Cohen makes your experience fun, comfortable, and convenient. If you are looking to get an amazingly beautiful smile that fits you, don?t waste your time going on multiple consultations with other orthodontists, and instead set up a free consultation with Dr. Jessica Cohen. Trust me, you will be happy and smiling that you did.?

Interested parties may also reach out to Dr. Jessica Cohen or her staff in person to inquire further about the practice and the dental procedures they offer. More information can be found online, and visitors are welcome to learn more about adult braces, Invisalign, teeth whitening, and the many other procedures on offer at Jessica Cohen Orthodontics by browsing their website.
