

Limo Service Company In Santa Monica, CA Launches New Website

November 08, 2019

November 08, 2019 -

Bond Limousine, based in Santa Monica, California, has proudly announced the launch of their new website, featuring enhanced functionalities and more resources for their clients. While the company's Santa Monica limo service is among the most reliable in the area, their previous website was outdated and lacked important features, prompting them to renew it and improve its look as well as updating the information it contained.

Gary Helms, a representative of Bond Limousine in Santa Monica, said, "We are very excited to launch this platform for our clients, and we certainly hope that it will be to their liking. We worked closely with the developers to include some of the functions that they requested in the past, such as an interactive gallery of our vehicle fleet, and a contact form to request quotes more easily. All of these features are now available and fully functional, and we encourage any prospective client, as well as our loyal customers, to pay a visit to our website and let us know if they have any issues or questions."

The company states that their main priority while designing their new website was to maintain a simple and refined look that eased navigation without compromising its features. The result is a design that includes all of the information and resources that may be of relevance to the company's clients, including their contact

information and a thorough list of their services for easy access and convenience. This space also boasts some of the company's most recent customer reviews, in which many of their clients praise the local company's car service, attentiveness, and care.

Through this space, attesting to the company's excellence, Mariah C. states, "We used Bond Limousine for a night out. We're a group with a lot of energy and they handled us like complete champs! The driver was great and the stretch SUV limo was exactly what we wanted."

Another customer review, written by Valentine S., says that the company provided, "Unbeatable customer service. We were brainstorming a weekend tour for some friends coming to town and randomly called them at 10 pm not really thinking they would even be available, but they picked up right away and helped give us recommendations for our day cruise. Outstanding company!"

These testimonials demonstrate the company's commitment towards helping their clients, as they make every effort to ease the process of hiring their services. They state that their agents can help coordinate each client's special events in Santa Monica as well as Los Angeles, advising them on ways they may improve their experience during their trips. The company's outstanding customer attention is complemented by the vast fleet of vehicle options that they offer, which includes luxury sedans, buses, mini-coach buses, stretch limos, party limousines, and more. Additionally, they offer 24/7 services and are able to book any party size.

Some of the services provided by Bond Limousine include Prom Transport, Wedding Transport, City Tours, Vineyards Wine Tours, and more. Given that the company deals with high-demand Santa Monica executives, they reassure that they value and emphasize punctuality, customer service, and safety above all else.

"We provide the perfect vehicles for perfect occasions. Whether you are looking for transportation for a large group or an exclusive private VIP ride, we have you covered," states Helms. "While you may think that all limousine services are the same, this is not the case. When it comes to trusting your transport for a special occasion, you want to rely on a company with a proven history of success. You do not want to be let down at an inopportune moment, so we guarantee our clients a premium experience. We know what it takes to provide you with the ultimate experience in comfort. Take a ride with us and see why we are the top-rated company in Santa Monica."

The company's website includes more information on the services provided by Bond Limousine, including a breakdown of what they encompass. Furthermore, interested parties may reach out to Gary Helms to follow up on any inquiries. Their website is available here: <https://bondlimosantamonica.com>.
