San Diego, California based Qik Title Loans San Diego 1 has announced that they are helping people get the fast cash they need during financial emergencies that are exacerbated by the high cost of living in the area. In fact, a new study from Move.org claims that San Diego is the 12th most expensive city to live in the United States, with focus placed on the 75 most populous cities in the U.S.

Meanwhile, as noted on the company's website at <https://qiktitleloanssandiego.com/location/qik-car-title-loans-san-diego/>, Qik Title Loans San Diego 1 has helped thousands of San Diego residents settle their financial obligations, such as emergency medical bills, tuition fees, home repairs, liquidation of business, bankruptcy, and other miscellaneous expenses. They take pride in being responsible financial service providers who offer flexible monthly repayment plans to help their clients conquer their financial pit instead of driving them further towards bankruptcy.

Qik Title Loans San Diego 1 asserts that their fast cash application process is designed to be fast and efficient. Car owners can either apply online or visit in person. The online application process only takes about five minutes and, upon receipt of the accomplished online form, a customer service representative will shortly be in touch with applicants to guide them through the whole process. Upon assessment and approval, applicants are required to submit a list of relevant documents, including their vehicle's title, insurance papers, a California driver's license, and proof of income. These papers are needed to confirm that the applicant is the actual owner of the car. Upon confirmation, the cash will then either be wired transferred to the applicant's bank account or sent via MoneyGram, which is accessible through retailers like Walmart, CVS Pharmacy, and more. A detailed guide about the online application process can be found at <https://qiktitleloanssandiego.com/how-it-works/>.

The company also points out that the owner can still keep their car and make use of it during the repayment period. "We will not take your car in any unnecessary circumstances. We intentionally avoid such cases, unless it serves as a last resort if you decide to not repay us. We do as much as we can to make sure you don't lose your vehicle, and we'll help you set-up a repayment plan that is suitable to your current financial

status,? they explain. Furthermore, the company states that they will return the auto title to the car owner as soon as the account is settled.
