October 31, 2019 - PRESSADVANTAGE -

Sydney, Australia ? First Class Trip Reviews is pleased to announce that its online travel review site for first class and business class travellers is now available. This innovative platform has compiled the most recent consumer opinions about luxury travel with authentic reviews from hundreds of high-end travellers. Reviews include topics like first and biz class reviews on international airlines, airport lounges, five-star hotels, luxury cruise liners, and a lot more.

According to First Class Trip Reviews founder, Tina Tong, the platform is filling a void that simply does not exist for first and business class travelers: ?In the past it?s been hard for high-end travellers to obtain authentic information about flights and airlines since there are very few first and business class reviews out there. Tina explains how their site is completely independent, and has no company affiliations whatsoever, which means that the reviews are unbiased and totally trustworthy.?

Tina stressed in an interview that anyone who contributes a review to the site must confirm their travel information before posting a review, ?We have a process to ensure that every review posted is written by a verified traveller. It?s very important for us to ensure that all reviews are completely authentic for the sake of

our users.?

Tina adds that many users have shown great interest in reading about A380 first class flights along with other first and business class options, ?A380 first class airlines supposedly offer the ultimate in luxury travel, however caution is advised as not all airlines offer the same level of service. It?s definitely a wise decision to research authentic customer reviews before making your reservation. You will be quite surprised by some of the experiences our reviewers have had in the course of their travels.?

The First Class Trip Reviews website is easy to navigate. The menu bar provides a drop-down list of topics, and verified travellers are also invited to write a review. Relevant travel news information and interesting articles are also included on the site.
