Minneapolis Locksmith Advises Residents To Install New Door Locksets

November 08, 2019

November 08, 2019 -
Minneapolis, MN based Fast Eddys Keys Express is reaching out to the communities they serve to advise residents against relying on the existing locks of the new homes they move into. The Minneapolis locksmith has a wealth of experience working with locks and keys of all kinds, for residences and vehicles alike. Their input and perspectives are often invaluable to people who simply want to know how they may better protect themselves and their belongings with the security options they most often utilize.

Edward ?Fast Eddy? Mann, Owner of Fast Eddys Keys Express, states, ?When you consider that new residents rarely know the habits of the property?s previous owners or inhabitants, they should not take it for granted that their home?s security is not compromised. Things can go wrong even without malicious intent, so the best practice is to make sure that all your security devices, including your locks, are reset in front of your eyes.? As Mann specializes in locks, his advice primarily targets this aspect of a home?s security.

He continues, ?When you move into a new home or apartment, it is a wise idea to make sure you change the locks to brand new ones that you purchase yourself, preferably with the guidance of a reliable contractor like us. For instance, you can never be sure who the prior owners/tenants shared an extra key with. Even if these individuals bear you no ill will at the moment, it is in your best interests to make sure that an unlikely scenario becomes an impossible one by changing the locks outright. Furthermore, once you do decide to get new locks, please feel free to reach out to us. Fast Eddys Keys Express are the folks to call when you need to install door locks.?

Mann also notes that locks come in a variety of grades, with different grades boasting varying levels of security. ?If home is where the heart is, you can?t go wrong by investing in better protection for your heart,? he says. ?A good, solid door is only as good as its weakest link, so we deeply recommend that you invest in lock that is worthy of the security your home deserves.? In addition to this, he encourages homeowners and apartment tenants to look into getting longer screws for their locks. Locks that utilize short screws cannot

withstand much stress, so a determined intruder can sometimes kick down a door in short order. Longer screws, however, make the lock substantially stronger.

?While you should always carefully consider the investment you put into your security, and try to push your budget up wherever possible to ensure you?re getting adequate coverage,? says Mann. ?A locksmith who is worth your time will let you know of several relatively inexpensive ways that you can secure your home better. With new screws, for example, you don?t even need to get special screws at inflated prices. They don?t need to be made of any special metal or alloy. A regular, longer screw will do just fine.?

Fast Eddys Keys Express was founded by Mann in 1985, and he has used his experience with the company as a forge within which to enhance his skill in the business. As a result, the company?s customers often have extremely positive feedback to share about them, as attested by the nearly perfect 4.9/5 aggregate review score they boast on the Google platform.

In one such review, which gave the business a perfect five star rating, Stephani Wolfe says, ?Fast Eddy was so incredibly helpful for my family when we returned from out of town to discover we had locked our house key inside our house. He helped us on the Sunday afternoon of 4th of July weekend?not an ideal time to make a house call! We appreciated his patience, while we went to shop for a new door handle, and the speed with which he was able to get us into our house! Would recommend to anyone in need of a locksmith in the Twin Cities.?

Those who wish to learn more about Fast Eddys Keys Express, and its owner Fast Eddy, may reach out to Edward Mann to follow up on any inquiries.
