

Mobile Plant Design Company Showcases Innovative Living Green Wall Installation

October 31, 2019

October 31, 2019 - PRESSADVANTAGE -

Mobile, Ala. - Heroman Services, a mobile plantscaping company, is the leading Interior Landscaping firm along the Gulf Coast and is ranked as a Top 25 Company nationwide. As a 6th generation horticulture family, they provide personalized designs, installations, horticultural service and maintenance programs for hundreds of prestigious clients across the South.

This Autumn, the locally owned and operated business is showcasing their impressive Live Green Wall as an alternative to typical design upgrades. A Green Wall is defined by the experts as, "a highly engineered contiguous system of plantings designed to protect the structural integrity of the building while providing significant environmental, economic and aesthetic benefits for the owner."

A Green Wall consists of vegetation and soil, or specially engineered growing medium, planted over a waterproofing membrane. Green Walls can be installed and admired in industrial facilities, retail office buildings, condominiums, residences and any number of commercial properties. This feature is a proven way to utilize plant designs in Mobile to make an office space or lobby feel more alive and inviting for guests.

The Heroman family has been involved in Horticulture since 1838. Going on two hundred years, and now six generations, they have devoted their working lives to the Green Industry, Biophilia, the innate need of humans to seek connections with nature, and training and educating new generations of Horticulturist along the way.
