

## **Warrington FedEx Shipping Authority Suggest Private Mailbox Rentals to Improve Security Measures**

*October 31, 2019*

October 31, 2019 - PRESSADVANTAGE -

Warrington, Fla. - The Pack & Ship Business Centers Warrington is proud to announce that they now offer a full mailbox rental service as a safer alternative to typical residential or business mailboxes. The Warrington FedEx shipping authority suggests renting a private mailbox is the most efficient way to receive mail and packages alike.

Small office and home office business operators have used private mailboxes for decades to help manage their business while private citizens utilize them for safety, security and convenience. Receiving mail and packages at your home or business can be challenging (and potentially risky) for a number of reasons, which is why private mailbox rental is such a viable option.

Unfortunately, identity thieves have a lot of personal and financial information at their disposal by stealing letters directly from a home or business mailbox. Additionally, UPS, FedEx, DHL and the United States Postal Service often leave packages on the porch or doorstep making it easy for thieves to steal them resulting in package theft becoming of the fastest-growing crimes in the US.

The Warrington mailbox service providers advise to consider important package deliveries and the convenience of having a set location and hours available for them. Instead of waiting at a home or residence to sign for a package or worrying about a package delivery while traveling, renting a mailbox gives a stress free, more secure option for deliveries.
