Long Island Firm Eyes Spot In Top 100 Environmental Services Firms In The US

November 04, 2019

November 04, 2019 -
PG Environmental Services Inc., the Leading Metro New York Environmental Servicing Company, is positioning its operation to become the top 100 environmental services firms in the United States.

It has been the goal of the Long Island-based firm, not just for their team but for their clients as well. To achieve this, the company continues to expand and improve its services. It has been serving clients in Long Island, New York since 2017. It is also servicing the Metro New York Area, including Manhattan and the Boroughs (The Bronx, Brooklyn, Manhattan, Queens, and Staten Island). It also never stops reaching more clients in its area of service.

The full-service environmental servicing company is likewise fully-equipped and professionally-staffed. PG Environmental Services Inc. provides a complete range of subsurface explorations and geotechnical investigations.

PG Enviro has implemented best practices procedures, placing service and clients first. "The reason for our growth and stellar reputation is due to our professional, on the job service with experienced and certified

drillers. Our clients give us high ratings because of our attention to detail and the ability to get the job done in a clean and efficient manner. We place our clients first," the company states on its website.

The company has also built a reputation for its unique problem solving and innovative technology implementation through a highly-qualified workforce, stringent safety standards, and state of the art technologies.

On their website, https://www.pgenviro.com/, clients can find their in-depth environmental services and capabilities. The services they offer include soil sampling, which employs the Geoprobe® DT22 Soil Sampling System. This system is known to provide only accurate results.

The company likewise experts in Geotechnical Data Services in New York, which is essential in property development. They also provide Ground Penetrating Radar devices which can be used to locate objects like post-tension cables, rebar, or conduits.

They also offer geotechnical drilling equipment available for both onshore and offshore projects. These equipment are capable of drilling in any terrain or location. The company provides both hollow-stem auger and rotary drilling featuring the following drilling rigs: low clearance, small ATV (all-terrain vehicle) track, large ATV track and rubber tire, and large truck rig.

"We complete projects both large and complex without sacrificing performance and providing quality samples," they claim.

Clients of PG Enviro also don't need to worry for they are insured with an A-rated carrier. Their insurance programs offer a "true" occurrence form general liability coverage with hazardous pollution. They also carry the statutory limits for workers' compensation and disability as mandated by the State of New York.

PG Environmental Services Inc. is located at 175 Commerce Drive, Unit N, Hauppauge, NY 11788. For queries, clients can reach them through 631-901-1888.
