

Fresh & Natural Thai Kitchen Restaurant Announces Their Grand Opening in Sedona

November 12, 2019

November 12, 2019 - PRESSADVANTAGE -

A new and unique Thai style restaurant has just opened in Sedona, Arizona. The name of the restaurant is the Fresh & Natural Thai Kitchen. The name says it all as to what style of food this new restaurant will be serving up. Their dishes will combine popular Thai flavors infused with organic and healthy ingredients. So those who visit the restaurant will be treated to Thai cooking with a little bit of a twist. The new restaurant is located in Sedona at 1439 W. State Route 89a. It will feature the creative cooking of renowned area Master Chef Pearl Pardee.

Master Chef Pardee talked more about the style of cooking one can expect to find at the newly opened restaurant, "Our cooking combines the best of both traditional Thai cooking and healthy eating which is why Pearl refers to her new Thai style dishes as "Nutritious Made Delicious". We use only fresh, all-natural, and organic ingredients. By combining these organic ingredients with our macrobiotic cooking style, our dishes have turned out to be exceptionally delicious and very healthy for you at the same time. You might even say it's the most advanced fusion of Thai and naturally healthy flavors ever created."

Pardee went on to add that the new restaurant Thai kitchen menu. had taken a long time to develop the Thai infused style into the new signature dishes. A good example of this is the new restaurant's Thai Street Tacos dish. Added into it are some natural non-traditional Thai ingredients which gives it a slightly different taste than what someone would experience if they had the dish in Thailand itself. It also adds more nutrition to the dish.

The master chef expects one of the most popular items at the restaurant to be their Thai bowls. That's because this dish allows people to create their own favorite Thai meals from scratch. Customers will start by selecting a base ingredient such as noodles or rice. They are also asked to choose two different vegetables and one of the specialty house sauces. Customers can also select from a variety of proteins such as chicken, shrimp, and tofu to make their meal more uniquely their own. There are literally thousands of ways that a

customer can choose to create their individual rice bowl meal. Pardee expects people to have a lot of fun with that. It will also allow their customers to have a different eating experience each time they visit the Fresh & Natural Thai kitchen.

Some of the more unusual dishes this Thai infused restaurant serves are its Thai Burgers, Thai Meatball Sticks, and Thai Street Tacos. There are also very creative and interesting dishes such as the restaurants Lemon Grass Garlic Chicken and Wild Salmon Delicacy. For those that like a little more traditional style Thai cooking, there is a wide assortment of Kao Pad (fried rice) choices. Even the beverage choices such as Thai Iced Tea (Cane sugar added) and Lemongrass Tea (Sugar-free) infuse traditional Thai flavors with more healthy ingredients.

The restaurant itself was created with a lot more in mind than just serving good Thai food. It can best be described as having an environmentally focused design that features big windows that let in a lot of natural light and both inside and outside dining areas. The restaurant itself is even located in an environmentally-friendly part of town. Pardee says this was done so their many customers can enjoy the atmosphere as well as the food while dining.

Master Chef Pardee brings with her a lot of Thai cooking experience. She also owns another area Thai restaurant called the Thai Spices Natural Restaurant. The master chef has run that restaurant successfully for over 25 years now. Upon opening the Fresh & Natural Thai Kitchen, Pardee described it as the realization of a dream that was over 20 years in the making.

For those that want to learn more about this Sedona restaurant Thai kitchen, they can check out their website or give them a call and speak to a representative at the restaurant. The restaurant is already open and serves its unique style of Thai food from 12:00 pm - 8:30 pm every day.
