

Piedmont Paint & Finish Shares Their Latest 5-Star Review

November 14, 2019

Charlottesville, VA - November 14, 2019 -
Piedmont Paint & Finish is a contractor that has been serving the greater Charlottesville, Virginia and Albemarle County areas for over 20 years now. During that time, they have worked hard to establish a reputation as a painting contractor that does excellent work, keeps their promises, and treats their customers right. They are also a company that likes to share reviews that show they are meeting the lofty expectations they have placed on themselves. A recent 5-star review had nothing but good things to say about this painting contractor. That review can be seen here at https://goo.gl/maps/vWuexFN2VKo83D1n9.

In the review, Zach Baumann writes, ?Piedmont did a great job painting our living space. They went above and beyond by moving around things on counters and moving furniture and did it all for a very reasonable price. I can't wait to recommend them to friends and will hire them again in the future.?

Several other reviews can be seen on the same Google Map page as the above-mentioned customer feedback. There have been some 42 reviews written on the company on this webpage. They are all very

similar in that they all complement Piedmont Paint & Finish?s work. As a matter of fact, those 42 reviews on the company average out to a very favorable 4.9 out of a possible 5-stars. That is well above the average ratings for most companies that have that many reviews done on them.

The company has also shared their reviews on YouTube videos. An example of that can be viewed here at https://www.youtube.com/playlist?list=PL_NkCXuleQqdMOWgK1L6dYLlg9Q96RuW6.

Company owner Charles Davis had this to say about what the favorable reviews they receive mean to them, ?Like all companies, we spend some money on advertising but one thing we never forget is that the best advertising comes from word of mouth. Positive reviews leave a strong impression on those that are thinking about trying our painting services. That?s why we work so hard for each and every residential and commercial customer that uses our painting services. To us, positive reviews are also like a badge of achievement that shows we are running our business the right way.?

The company also does a wide variety of commercial painting tasks. They strive just as hard to satisfy their business customers. Kristie Huffman of Charlottesville attests to that fact by saying in a review, ?My company hired Piedmont Paint & Finish to paint the entire store. William came in and talked to me personally and showed me what he and his crew were going to be doing. While they were on the job, William was in touch with me every day with the progress that they were making. He was very professional. He and his crew worked fast and are very accurate and neat with their painting. I would recommend him and his crew for any painting that you would need done. Thank you for an excellent job. The store looks great.? This positive commercial review was taken right from the testimonials on the company?s website. That review and many others like it are featured on the company's website at http://piedmontpaint.com.

Piedmont Paint & Finish?s website also explains how the company goes about conducting its business in order to receive the high ratings and reviews that they always seem to get. According to the website, their work philosophy goes well beyond just doing exceptional painting work. They also strive to get their projects done on time, are meticulous in their painting prep work, clean up thoroughly after themselves, and communicate with their customers during every phase of a painting job. They know that all these things add up to great peace of mind and satisfaction for their customers.

Other things that the company does to satisfy its customers include free onsite inspections and estimates. They also guarantee that their customers will be happy with the results of the painting work that the company provides for them. Piedmont Paint & Finish also never considers any residential or commercial painting project to be too big, too small or too complex for them to take on for a customer.
