Escamilla Law Group (ELG) is pleased to inform the residents of Mesa, Arizona that the firm?s local office offers Mesa auto accident attorney services. With over 100,000 automobile accidents happening every year in Arizona, over 1,000 automobile accident related deaths, and 53,000 people left to deal with injuries and losses sustained during an automobile accident, it is important to have an accident attorney on hand to make sure that one receives the compensation they deserve. It is also vital to ensure that they are not falsely charged and forced to pay compensation where they should not have to.

?When victims are injured in auto accidents, it is crucial that they are able to work with a skilled and knowledgeable personal injury attorney in Mesa,? says the firm. ?Those harmed deserve full and fair compensation for their damages, and they deserve justice for their injuries.? The attorneys at Escamilla Law Group are dedicated to making sure that those liable are held responsible and their victims are protected. The firm?s attorneys have over 30 years? worth of combined experience in helping accident victims find their feet again, and they seek to ensure that the suffering of Mesa car accident victims is kept to a minimum.

The attorneys at Escamilla Law Group review the details of each victim?s claim, consult with expert witness,

and take all the steps necessary to help their clients get the best possible outcome no matter the circumstances. This is crucial since being involved in a car accident can change one?s life completely. Accidents can result in injury, which can in turn lead to one being unable to work and support themselves. They can also lead to the death of loved ones and providers and can result in the utter destruction of one?s vehicle which, for most people, is a crippling loss. These problems are exacerbated by the fact that insurance companies will often offer low settlements that are not enough to cover the cost of medical treatment.

?Not only do these settlement offers provide less than what is needed to cover the costs for treatment and other damages, but they jeopardize victims? abilities to file a legal claim against those at fault in the future,? says Escamilla Law Group. ?For this reason, it is imperative for victims to contact a car accident attorney in Mesa as soon as possible to ensure their best interests are protected.?
