

Telus/Cambridge Electronics Fulfil Exclusive Telus ADT Offers For Fort Saskatchewan Residents

November 19, 2019

November 19, 2019 - PRESSADVANTAGE -

Fort Saskatchewan, Alberta based Telus/Cambridge Electronics Incorporated has announced that they are able to honor the exclusive ADT Smart Home Technology offers they have received from Telus. Telus has advised their customers to visit their local Telus store to redeem their promo codes.

Dan LHeureux, a representative for the Telus/Cambridge Electronics, said, "We will honour the promotion code for activations and renewals across the entire range of the offers. Come in and tell exactly what you want, and you too may be able to get up to six months free ADT home security for your home. It's probably best to get in ahead of the Black Friday sales so we can help you explore your options and explain any associated activation fees."

Telus Fort Sask can offer the complete range of options for any customer who would like to ensure that their home is safe. For example, those who opt for the Internet-only offer or Internet + Optik TV offer will receive three months of free ADT service. Those who opt for Optik TV + Internet and their Mobility plan will receive six months free ADT service, subject to Mobility Eligibility. It is important to note that these offers are available for activations and renewals.

The company's stores are open every day of the week, allowing customers to find all the latest electronic offerings on the market at their convenience. They are open from 9:00 am - 8:00 pm from Monday to Friday, 9:30 am - 6:00 pm on Saturday, and 11:00 am to 5:00 pm on Sunday. LHeureux continued, "We urge anyone who has received a letter from Telus to open it immediately. If you have wanted to try ADT's Security and alarm monitoring service, it's the perfect way to make sure your home is safe through the new year."

The Telus wireless home phone is an innovative alternative to traditional home phone infrastructure that can be used on the Telus wireless network. It allows customers to keep their existing number and bundle it in with their mobile plan, receiving every charge in a single bill, no matter where they take their unlimited nationwide service.

Mobility Eligibility is available for activations and renewals on MTM and 2-year terms. These offers provide access to multiple Telus Plans, including Consumer Peace Of Mind, Peace of Mind Connect or Simple Share rate plans. All of these 2-year term offers come with a range of easy payment options, including zero upfront, low upfront and low monthly instalments. Telus deals can also be stacked with other code-based offers/promotions and Backpocket Offers. Furthermore, they are eligible for the TELUS Family Discount.

Those who need to take their number with them as they travel have found that this is a convenient solution. Telus/Cambridge Electronics has earned their reputation as the leading supplier for rural internet solutions, given that they understand the needs of their customers and make the very best products available. This is borne out by their customer reviews, which are readily available online. For example, Kevin Eberhard recently gave them 5-Stars in a review on Google that said he, "Went into the store in Cornerstone Mall looking for a rural internet solution. I picked up an amazing package that gives me 1T of data on a device called the Telus Smarthub. Excellent service."

Telus Home Services Eligibility is available for FFH activations and renewals on customer services for Internet, Optik TV, Wireless Home Phone or Smart Hub on a 2-year term. These are available upon activation of Home Phone, Pik TV or LivingWell Companion (LWC) services on an in-market plan. The Telus offer is not available with SmartHome Security (SHS) though it can be used for internet upgrades.

Another customer, Tiffany Cuthbert, who gave the company 5-Stars, stated, "I can't even begin to explain how amazing the customer service is here. I've been in twice and the owner, Dan, had no problem staying past closing time to deal with activations and additional information. The customer service Dan and his employees offer is exceptional and I would recommend this Telus dealer for all your mobile, internet and TV needs."

Interested parties may visit the company's website for additional information regarding their ongoing promotions. Customers are also encouraged to follow the company's social media channels to stay up to date with their latest news and announcements. Learn more here: [Telus My Account Login](#).
