Fiesta Flowers ? The Premiere Florist Tempe ? Announces The Arrival of Their Seasonal Selection

December 16, 2019

December 16, 2019 -
Fiesta Flowers Plants & Gifts, based in Tempe, Arizona, announce that they are ready to help with any and all floral requirements, big or small, for the upcoming holiday season. In addition, they have a curated selection of accompanying gifts to compliment the flowers or displays, if required.

December is a very busy time of the year for most people as the holidays and Christmas are coming up quickly. There is much to do and so much to arrange; gifts to buy, decorations to put up, and more. Flowers feature highly at this time as centerpieces, general decorations, and gifts.

Centerpieces can form the decorative focus of any Christmas or holiday dinner table and Fiesta Flowers has a varied selection that will suit every taste and every wallet. Their centerpieces can, of course, be sent as gifts. In addition to centerpieces, they have a wide selection of displays and bouquets that will complement holiday decorations around the home or make great gifts.

Anderson Fernsby, a Tempe resident, said, ?We used Fiesta for the first time last year and were really pleased with the centerpiece we received. This year, we have a big Christmas family reunion planned and we needed a standout centerpiece. Fiesta?s consultants have been really helpful and have come up with just the design we needed. We?re really looking forward to its arrival.?

Although the Christmas holidays are first and foremost in most people?s minds, December also marks the arrival of the New Year and New Year?s parties. Centerpieces and displays are available for parties at home or at work. Whether your preferences are for simple or elegant looks, there is something available to suit every sensibility and every event.

Additionally, it?s not just flowers and floral arrangements on offer. In addition, there?s a large selection of curated keepsake gifts available. ?Forever? roses handcrafted in silk, gourmet organic chocolates, stuffed

animals, a selection of cool and unique greeting cards - among many others - are available for purchase.

December is not just about the holidays and New Year though. December weddings are becoming increasingly popular for many reasons. For one, the heat of summer isn?t a problem, and it is usually much easier for couples to secure their ideal venue.

December weddings are often smaller and more intimate than those held at other times of the year and there is a great choice of décor available. Fiesta can help couples choose holiday-inspired wreaths and flowers to complete their picture-perfect day.

Janice Karminsky said, ?We decided on a December wedding mostly because the venue we wanted was booked solid at more traditional times of the year. We decided to have everything themed for holiday colors and we went to Fiesta Flowers as they had a five-star rating online. They were very helpful, and the centerpieces and bouquets were perfect.?

It?s not easy in this day and age of social media to earn and maintain top-notch reviews. Fiesta Flowers has a 5-star rating on Yelp and WeddingWire and are highly rated for their quality of service, flexibility, and professionalism. Fiesta Flowers makes sure that that reputation is deserved and preserved. They purchase their flowers from all over the world and only choose suppliers that cut and ship the same day so that freshness is ensured.

They take the greatest of care that the flowers customers receive are the freshest available. Each variety of flower is stored and fed with its own type of food and they are the only florist in Arizona that does this.

In addition, they use CO2 filters in all their flower coolers to stop the flowers degrading from ethylene gas produced as they age. Lastly, each finished design is sprayed with ?Hawaiian Mist? or ?Crowning Glory? before leaving the shop. These are bioreactive sprays that maintain the flowers moisture and freshness. This ensures that customers have the longest-lasting blooms available anywhere.

Fiesta Flowers in Tempe are well known and highly respected in the local community. It is not just Tempe that they serve, however. Scottsdale, Gilbert, Mesa, Phoenix, and Chandler are also within their sphere of operation.

Online, or in person, they have the upcoming holiday season covered. Whether customers need flowers for themselves or need them delivered around the world, experienced professional consultants are available to help select the perfect floral expression.
