

Thermopeutic Launches Premium and Reusable Ice Pack For Lower Back

November 22, 2019

November 22, 2019 - PRESSADVANTAGE -

Thermopeutic is a US-based cold therapy product development company. It has come up with a reusable premium ice pack. It provides the right amount of compression and stays in its place for a long time. Sharp falls, accidents, and tripping over some objects occur in injuries, soreness, and swelling. In this case, the ice pack with long-lasting gel formula proves best.

The ice pack comes in a 15" X 7" size that also works as a perfect fit for the lower back, shoulder, knee, arm, and foot. Moreover, it remains cold for a long time as compared to other ice packs. Its neoprene strap provides maximum compression on the injured areas.

This multipurpose ice pack is one of the top-selling items as it provides full coverage on the injured areas. And our ice pack includes more gel and offers more compressions. Also, it stays up to two times colder than other ice packs while remaining fairly flexible, according to Howard Shen, Co-Founder of Thermopeutic.

Its high-quality neoprene strap makes one-hand use easy. Moreover, it provides maximum compression in the treatment area. Even its gel pack is 30% thicker than any other ice gel packs. The company offers this

multi-purpose ice pack at a competitive price. It is a one-stop solution for all sorts of injuries and pains.

One of their most recent customer reviews comes from a customer who suffered from years of lower back pain and used the Thermopeutic product to alleviate the pain. Lukas Kucinski states, "This ice pack is perfect for my needs. For years I've been using a generic ice pack to alleviate my lower back pain, and it just wasn't cutting it anymore. I like how this one is longer and flatter than others I've seen. It covers my entire back and doesn't feel uncomfortable when I lay on it. It retains cold well. Usually can get 45-60 mins of cool when I take out of the freezer. It has some nice touches too, an extra strap, a customized ziploc bag for storage and a cloth pouch to protect the skin. Overall, I'm quite pleased with the product."

Those who are interested in the Thermopeutic Reusable Ice Pack can visit their website or their Amazon page, or contact them on the phone or via email.
