

Austin Roofing Company Announces a Key Addition to Their Team

December 01, 2019

December 01, 2019 - PRESSADVANTAGE -

TWT Exteriors & Roofing is a family-owned business that has been serving the needs of those in that area of Texas for many years now. They are well-known for taking people's outdoor dreams and making them a reality. The company can do that because the management, crew, and staff combine for over 50 years' experience in the roofing and exterior renovations industry. That is impressive by any standards. It's also a major reason why they can meet their customers' design wishes while helping them to stay on budget at the same time. Despite the vast amount of experience that they already bring to this type of business, they still look for ways to improve upon that. A good example of this is that TWT recently hired industry veteran Chris Golden to join their team.

Company spokesperson Keith Wright talked about why the company made this significant personnel move, "Over the years we have worked hard to build this business into the success it is today. We could not have done that without adding some very experienced professionals along the way. That experience has not only helped improve the quality of our work, but it has also allowed us to expand into home exterior and roofing areas that we never thought possible. By hiring Chris, that allows us to continue on with this trend."

Wright went on to tell more about Chris and his background by saying, "We thought it was pretty amazing when we found out we had a chance to bring Chris on board with us. He has been working in this type of industry for over 20 years now. Chris has an extensive background in marketing, leadership, sales and product management. These skills were gained by working with some big manufacturers in their respective fields. To say he was a perfect fit for us is an understatement. He brings the type of industry experience that will help improve the way we operate and make us a better company overall. Chris also knows the Austin, Texas area well because he has lived here since 2005 and currently resides in Round Rock. We welcome him, his wife, 3 children, and 3 dogs into the TWT family."

He went on to add that one of Chris's main jobs will be to further enhance the relationships that TWT

Exteriors & Roofing has built with its customers. Chris will be working with customers from the first contact through the time a project is finished. He will enable TWT to have yet another way to add a personal touch to the business. Wright says Chris already knows full-well the company motto of "building trust and exceeding expectations". He added that this is expected from every member of their team from top to bottom. Wright also made no bones about directly attributing this philosophy to the success of the company.

Besides having very experienced personnel, the company lists an impressive array of home exterior and roofing services. Among the most popular of these services is their residential roofing work. They are asphalt shingle experts and offer other quality roof coverings as well. These include decorative ceramic tile and durable metal roofing panels. Their experienced residential roofing crews know exactly how to lay these roofing materials down so that the finished product accents the look of any home.

The company also has a solid reputation when it comes to doing commercial roofing work. They work with a variety of single-ply roofing membranes such as TPO, EPDM, and PVC. TWT also specializes in laying down Built-up, Modified Bitumen, Silicone, and Acrylic commercial roof coatings.

As far as home exteriors go, they are very experienced at doing window and siding replacements. TWT Exteriors & Roofing also does stucco work and installs new gutters and downspouts. Stamping and staining concrete is a specialty too. TWT is also known for creating beautiful outdoor living spaces that are often accented with unique Louvered Roofing.

More on this progressive Austin roofing company can be seen on their very informative website.
