

## **Apple Unexpectedly Removes All Online Store Customer Reviews**

*November 26, 2019*

November 26, 2019 - PRESSADVANTAGE -

Sunsella, a company based in Las Vegas, Nevada, that offers home and kitchen products online, has announced that Apple has removed all customer reviews from its online stores for the US, UK and Australia. It was reported that the "Ratings & Reviews" section of Apple's online store has disappeared as of November 17 without any explanation. This means that people who are considering the purchase a particular Apple product can no longer browse for comments from former buyers.

Apple has not issued any statement yet with regards to the reason for its most recent move. People who are planning to buy anything from Apple at the present time will need to look for customer reviews elsewhere.

Meanwhile, the online seller of various home and kitchen products has announced the availability of several convenient products. Available is a stainless steel vegetable steamer. This is manufactured from 100 percent high-grade stainless steel and it has an innovative design that allows its diameter to be easily adjusted to be able to fit into different sizes of pots and pans. Its diameter can also be adjusted to make it fit inside a pot or pan in order to steam different kinds of foods, such as eggs, dumplings, fruits, vegetables, chicken, desserts, meat, seafood, etc. It can also be used as a container for the steamed vegetables and other foods and it can

be easily retrieved from within a pot or pan by using its center ring or extension handle.

Another in-demand product offered by Sunsella that could be helpful for the cooking requirements of the upcoming holidays is the silicone vegetable steamer. This steamer can be made smaller in size to make it easy to store it inside a drawer or cabinet when it is not in use. It is constructed from high grade silicone and its size can also easily be adjusted to make it fit inside different sizes of pots and pans. It can withstand heat up to 446 degrees Fahrenheit or 230 degrees Centigrade. It is also provided with durable locking handles that can be conveniently used for retrieving it from inside a pot or pan. And the handles can be folded, allowing the lid of the pot or pan to be closed while it's being used for steaming. It can be used to steam various kinds of food like dumplings, fruits, eggs, chicken, desserts, vegetables, meat, seafood, and more.

Sunsella also offers the popular Leakproof Lunch Container. These are 100 percent leakproof bento boxes, which means that there would be no worries about liquids like soup accidentally leaking out of the box, possibly ruining other items in the bag. It also means that its lid is tight enough to prevent the soup or sauce from going to the other compartments and possibly ruining the other foods in the box. This bento box can both be utilized as a work lunch box or a student's lunch box. Adults could plan and prepare their lunch for the whole week and keep these boxes in the refrigerator so that in the morning it would be easy to simply get a box from the fridge, heat it up, and they're ready to go to work. Parents can do something similar for their kids who go to school.

Another important product for cooking from Sunsella is a set of four silicone egg rings. These rings are manufactured from high-grade and extra thick silicone and each ring has a stainless steel handle. Each ring is reusable and non-stick and it is suggested that it be used on coated cookware for non-scratch cooking. Those who love to cook can make perfectly round omelets, fried eggs, pancakes, burger patties, and more with these silicone rings. They are also heat resistant and oven safe, meaning they can be used on a skillet, a pan, a barbecue grill, or a griddle.

People interested in any of the Sunsella home and kitchen products can check out their website or contact them through the telephone or via email.
