The Rhinoplasty Center, based in Newport Beach, California, is reaching out to the wider community to explain the importance of choosing the best cosmetic surgeon for rhinoplasty procedures. The Rhinoplasty Center has established itself as the pre-eminent destination for local, national and international patients seeking rhinoplasty in Newport Beach.

Dr. Aaron Kosins, lead cosmetic surgeon and representative for The Rhinoplasty Center, says, "Many people want to have rhinoplasty done but they end up making a very big mistake: they choose an inferior surgeon. The truth is that it is not like buying a dress that can be returned or a car that can be replaced. Rhinoplasty involves your face and that is just not something you want to take lightly."

According to Dr. Kosins, choosing a rhinoplasty surgeon should generally involve four basic, but crucial, considerations. The first is to ensure that the surgeon is Board-Certified by the American Board of Plastic Surgery or the American Board of Facial Plastic Surgery. As he explains it, other types of Board-Certification do not count when it comes to rhinoplasty.

In addition, the surgeon should also conduct a thorough examination of the inside, as well as the outside, of the nose. This would allow an experienced rhinoplasty surgeon to repair functional deformities in the nose, in addition to cosmetic ones. Dr. Kosins also recommends reviewing a potential "after" simulation with a potential rhinoplasty surgeon. This is usually accomplished via a 3D imaging system where the surgeon can manipulate a 3D model of the patient's current nose to determine the goal of the rhinoplasty process. This allows the patient to ensure that the surgeon has a proper understanding of their vision of the desired end result.

Dr. Kosins also says that it is important to review before and after photos from other procedures done by the rhinoplasty surgeon—a simulation does not provide a guarantee that the surgeon has the experience to accomplish the desired results. The proof, generally, can usually be found in their past work.

The most important thing, according to Dr. Kosins, is to meet with several surgeons. He says, "If you're going to trust your face and your good looks to another human being, even if they are a doctor, you need to make sure that you are 100% comfortable with them. You want to make sure that he or she has the same view of aesthetic value that you do."

The Rhinoplasty Center has a team that boasts a combined experience of 60 years. They have successfully completed over 6,000 procedures. The clinic further asserts that Dr. Aaron Kosins has established himself as the best rhinoplasty surgeon in Newport Beach.

Dr. Kosins' patients have shared nothing but praise for his skills. On Facebook, The Rhinoplasty Center is rated 4.7/5. In a recent review, Lauren Sturdivant says, "My entire experience was a pleasure from the first point of contact when I called to schedule my consultation for rhinoplasty. The staff at Dr. Kosins' office is truly the most pleasant and informative that I have encountered. They went above and beyond to make me feel at ease with everything. Dr. Kosins is exceptionally knowledgeable. He never made me feel rushed or dismissed. He had a special way of explaining things that brought me comfort and eliminated my stress. Dr. Kosins and his staff excel at both professional and personal care. I never doubted that I was being looked after well, and I am indescribably thrilled with my results."

Courtney Dougherty-Wooding shares her own experience with The Rhinoplasty Center in another review, where she says, "Dr. Kosins is one of the most caring doctors I have ever met. He takes the time necessary to listen to and educate his patients regarding their treatments and procedures to ensure that all questions are answered. He is genuinely concerned about helping you achieve the results you want. I highly recommend Dr. Kosins for your reconstructive and skin health needs."
