

# Loral Langemeier Millionaire Maker Pensacola Event Is Nearly Sold Out

*August 10, 2015*

August 10, 2015 - PRESSADVANTAGE -

The Loral Langemeier Millionaire Maker event in Pensacola, Florida, set for August 14, 2015, is nearly sold out. This one time only event is set to feature millionaire maker and bestselling author Loral Langemeier, who will share secrets to her success.

Debbly McKinney Mentor recently released a statement about tickets, "People who haven't secured their registration need to do so now. Our seats are nearly gone, so register now before it's too late."

Loral Langemeier has created more than 1000 millionaires and is speaking at the event to offer information for others who may want to join the millionaire ranks. She will discuss a wealth psychology that can turn ordinary people into millionaires in addition to mistakes that people commonly make when they attempt to become wealthy.

McKinney is urging would be participants to get registered as soon as possible. With the event just a few days away, seats will be gone soon. "If you don't register now, you may not get in, and trust us when we say that you do want in."

"Bring your business cards and you're A-Game. This event is THE place to connect," says McKinney. "Be sure to register today at <http://www.berealevent.com>, before all the seats are gone."

Event attendees will receive a hardcover copy of the book "Get in the Game, Get Off the Sideline and Start Improving Your Health, Wealth & Lifestyle." Those interested in attending should register now to avoid missing a seat. Registrations can be made at <http://pr2965.berealmedia.com>.

Keynote topics include how to create true financial security, regardless of how much debt consumers have or how much money they currently earn. Langemeier has been cited as the millionaire maker for turning average joe's into millionaires, some in as little as four months' time.

McKinney urges those who would like a spot at the event to register now, as there are no plans in the future to host another event like this one, and seats are becoming more limited by the day.

Those interested in more information about the event and registration can visit <http://www.berealevent.com>.
