

Honolulu Breast Augmentation Center Helps Patients Discover Their Perfect Form

November 27, 2019

November 27, 2019 - PRESSADVANTAGE -

The Hawaii based Honolulu Plastic Surgery Center is pleased to invite patients from all over the world to consult with them, especially those who wish to have a world class team of breast augmentation and plastic surgery specialists help them achieve the perfect form they desire. The Center understands that not everyone is born in the body they are most comfortable with, and they consider it their mission to lay their expertise and skills at the disposal of all who ask for their help.

Dr. Randy Wong, a plastic surgeon who practices at the peak of his field, says that many of his patients find themselves unsatisfied with some aspect of their breasts. Those outside the field are usually aware that plastic surgeons like Dr. Wong can change the size of a pair of breasts to fit the patient's preferences, but relatively fewer know that there are properties besides size that can contribute to a person's comfort with their own body.

The doctor says, "While breast augmentations are among the most common procedures that we carry out at Honolulu Plastic Surgery, breast enlargements and reductions are by no means the only changes we discuss with our patients. Many patients find, through their sessions with us, that a simple change in size may not

actually be what they want.? He adds, ?When they come to us, they are sure they have some dissatisfaction with their breasts, but they only find out what their precise issue is after they sit down for a session or so exploring their options with a qualified and experienced surgeon.?

He continues that this is the reason why all of his procedures are preceded by long, pragmatic discussions with his patients. A patient may visit the Center thinking a ?simple? increase in cup size will fix their issues, but this is not always the case. The doctor takes measures to ensure that each and every patient he sits down with understands the full scope of the options they have at their disposal. ?In addition to size,? he says, ?a patient may want to consider the shape, orientation, and even the texture of their breasts. There are a variety of paths they can take, and it is our job to educate them when they visit us.?

This step is particularly crucial, he says, because knowing what can be done and what to expect following their surgery can help a patient accept their new body much faster. It also helps prevent them from pursuing any procedures that they may not be fully comfortable with later on. Dr. Wong further notes that an extensive consultation is important due to the fact that many patients seek Honolulu breast augmentation procedures to help bolster their self-esteem. He believes that all of his patients deserve to feel comfortable in their own bodies, and ensuring they know and get exactly what they want is part of his work at the Honolulu Plastic Surgery Center.

In addition, Dr. Wong?s experience in the field of plastic surgery has brought him in contact with a variety of surgical techniques that can be utilized to effectively reduce a patient?s recovery time following their procedure. Thanks to the years of practice and hundreds of procedures he has performed, he knows exactly how to approach each patient?s body with respect for its unique properties. As such, he can shape their body in such a way so as to achieve an aesthetically pleasing result while simultaneously minimizing both pain and time spent in recovery.

The Center?s reviews are a testament to the positive experiences that their patients have with them. In her 5-Star review, Mandy Horst says, ?Dr. Wong is the most amazing plastic surgeon on this planet. He is a compassionate, knowledgeable, aesthetically in-tuned, and conscientious man of great integrity. He truly listens to what you need and does everything within his power to achieve the look you want. He has the best bedside manner and is a genius artist and master of his craft.?

Patients are welcome to contact the clinic?s staff to schedule an appointment with Dr. Wong, where they will explore the available options for their desired breast augmentation procedure. More information can be found on the Center?s website as well: <http://honoluluplasticsurgerycenter.com/>.
