

Made By Humans 2 Designs, Inc. Unveils Balloon Art Inspired Piggy Bank

December 02, 2019

December 02, 2019 -

Made By Humans 2 Designs, a Vancouver based designer and manufacturer, is pleased to announce the launch of their balloon art inspired piggy banks. Following the same theme as many of the company?s other products, the balloon art piggy banks are designed to be as unique as possible.

The balloon art piggy banks take the classic idea of piggy banks and add a unique, modern twist to the concept. Clowns performing tricks at children?s parties provided the inspiration for designing a series of unique, somewhat eccentric money banks in the shape of various pieces of balloon art. Just like real life balloon animals, Made By Humans? piggy banks come in many different shapes and sizes, including balloon pigs, dogs, elephants, giraffes and other animals. The money banks are made from super-shiny ceramic material which looks surprisingly similar to balloon animals from real rubber. Through Made By Humans, one can get their hands on a piece of art that evokes the very same whimsical sense of wonder one felt as a child upon seeing a balloon animal as well as the nostalgia associated with the concept of a piggy bank. Notably, the pieces still retain a sturdy construction despite their appearance.

Made By Humans 2 Designs has been creating unique accessory pieces for a wide range of tastes and applications for several years. They state that, ?Our story starts at a time when neon colors, tracksuits and boldly colored accessories were pretty much the norm. With the music and art scene booming with creativity during the 90s, Made By Humans emerged as a go-to supplier for fun office accessories and gift items.?

The team is composed of problem solvers, quirky innovators and passionate visionaries who all share one core belief: People over business. This is and has always been the central principle of the entire business and the reason why the Made By Humans team gets personally involved in every stage of the production process, from the early phase of a product concept to when it reaches the customer?s hands.

The company is passionate about creating pieces that act as vehicles of self-expression. ?Inspired by contemporary art and constantly trying to add a little playfulness and extra color to your daily life, we create products that make self-expression a non-negotiable statement,? says the company. ?Whether it?s a quirky and unusual desk accessory or a whimsical décor accent to add to your stylish modern home, Made By Humans? products help your unique personality shine through. With creativity as our playground and forward-thinking as our fuel, we create novelty products that strike the perfect balance between form and function, and we always have a charming way to make your day!?

Made By Humans designs and produces some of the most imaginative and playful accessories and unique gifts for the modern home and office. Their unique designs allow one to add a personal touch to any office or home space. ?Fuelled by our passion for great design and finding the perfect balance between form and function, our products are bold and whimsical but always functional and useful, allowing you to express your unique personality and make a strong décor statement,? says the company.

Every home or office could use some improvements, and the team at Made By Humans is there to provide the tools needed to make those improvements. While it may not seem like much, having a few small, unique, high quality pieces around one?s home can greatly improve the space. The quirky pieces from Made By Humans Designs do more than look pretty; they are also guaranteed to start a conversation whenever visitors notice them.
