

JandA Towing Offers Reliable Towing Service In The Bronx, NY

December 04, 2019

December 04, 2019 - PRESSADVANTAGE -

New York based JandA Towing is pleased to announce that they are offering fast and reliable towing services to residents of The Bronx and the surrounding areas. The company recently launched the business back in June 2019 to offer quality yet affordable towing and roadside assistance services to the motoring public in New York.

As noted on the company's website, JandA Towing is a family-owned business that aims to provide exceptional services to their clients. Company spokesperson Lewis Rogers says, "Being stranded in the middle of nowhere with a malfunctioning car can be both frustrating and troublesome. Vehicle breakdowns may happen at anytime so it is crucial to find a fast, responsive, and well-equipped towing company who is not only fast to respond but also capable of safely transporting your car."

Rogers asserts that JandA Towing is one of the few operators in the area that utilizes a fleet of modern trucks and equipment to ensure that they can do the job quickly without causing any further damage to the customer's vehicle. They are able to accommodate light-duty towing, medium-duty towing, and flatbed towing, and so on. They are also on-call 24/7 to provide assistance during roadside emergencies. More

information can be found at <http://gmbp.in/u/5ddbf6cd0ae8c>.

"If you are looking for quality yet affordable towing services in The Bronx, please do not hesitate to call us at JandA Towing to inquire about our services. We have the latest equipment, highly-skilled staff, and years of industry experience to handle even the most complex demands that other providers say no to," Rogers says. He points out that JandA Towing specializes in providing a variety of auto-related services, including car lock-out, winch out, and jumpstart services, among others. Furthermore, the company takes pride in having a team of highly-skilled technicians who are capable of working under different weather conditions and devising professional and practical solutions the fastest way possible.

JandA Towing also asserts that their rates are significantly cheaper when compared to other service providers in the area. The company states that they can handle all types of automobiles, motorcycles, and even exotic and luxury cars. "If you need a towing company to transport your vehicle to a body shop or showroom, call us. We will ensure that it will arrive on time, and in excellent condition, because our tow-truck operators are highly-skilled and, at the same time, they make it a priority to maintain a high level of safety," Rogers says.

However, he also warns drivers about a number of tow truck operators in the area who take advantage of their clients by overcharging and adding a lot of hidden costs. He further recommends calling several service providers before hiring one. "Do not get ripped off by dishonest operators. Do your research, contact a number of operators and compare their average response time. You should also ask for their base rates and other additional surcharges so you know what to expect when you receive the bill," he says.

JandA Towing is a trusted provider of towing and roadside assistance services, based on positive reviews and recommendations they have received from many of their previous clients. Marieah Ceja, in a 5-Star review, said, "All I have to say is that if I could give this company a million stars, I would. I was in such a jam with my company van and JandA Towing came in like a knight in shining armor. They were honest and fair. Hands down to their amazing customer service. Will highly recommend."

Jon Elias, in another glowing review, says, "I got into an accident in the Bronx so I called these guys, and they showed up in less than 30 mins and towed my car. I have never been in an accident before, and they were kind enough to walk me through the process and recommend a body shop to fix my car."

More details can be found on the company's website. Alternatively, customers may send an email or call their office hotline to inquire about their wide range of car related services.
