

Towing Service Launched In Dunwoody, GA

December 04, 2019

December 04, 2019 - PRESSADVANTAGE -

Dunwoody, Georgia based DG Towing is pleased to announce the launch of their towing services. The company opened for business on May 6, 2019, and plans to keep extending the reach of their towing and roadside assistance services in order to reach more stranded motorists who need help.

Company representative Knox Morton says, "We are extremely grateful to all those who have helped us realize our mission to provide affordable towing services to those in need without sacrificing our high quality customer service. We have been serving Dunwoody residents and the surrounding communities for more than 15 years, so we thought it was time for us to officially launch as our own firm to ensure that everyone has the choice to get the best and most affordable services available. To express our gratitude, we have two special discounts going on right now: 15% off our towing services or \$5 off any roadside assistance we provide. Just see the details on our website."

The company has launched a new website as well, making it easy for anyone stuck on the road to get help by calling the company directly from a smartphone. They can then provide the affordable towing service the caller needs as soon as they can get there. DG Towing also provides an auto recovery service as part of their wrecker services, so anyone who needs to transport a vehicle or motorcycle can rest assured that their property will be transported safely without any further damage.

Morton continues, "We are open 24 hours a day, every day of the year, because emergencies can happen any time. Our base of operations is situated near the I-285 and I-85, which means we can often get to situations faster than many other firms. We know we can handle any size of vehicle with one of our specialist recovery vehicles. We don't want anyone to be stranded on the side of the road, so we are fully-equipped to handle any repair. You can count on us to go that extra mile without complaining. The safety of both our customers and their vehicles is the heart of our business." More information about DG Towing's location can be found here: <http://gmbp.in/u/5ddbfc3a4ef17>.

With extra events and holiday shopping, more people than ever seem to manage to lock themselves out of their car and have no way to get back on the road. Using DG Towing, however, they can get the help they require when they need it most. The company's technicians have the skills and tools necessary to get anyone back on the road.

Many people have taken advantage of the firm's roadside assistance to jumpstart their car and get them back on their travels. Others have needed to have their vehicles recovered and taken to safety. Over the past few months, the firm has provided the most cost competitive prices for towing services that customers can depend on, which is why they are most well known for providing cheap towing services throughout the week. See more about their services here: <http://gmbp.in/u/5ddbfc0680221>.

There are many reviews on their website that confirm the company is both reliable and efficient in their work. For instance, Megan Lewellyn's 5-Star review says that they had a, "Friendly gentleman with genuine concern for my car troubles. I was very impressed with his promptness. I was very appreciative because I had called eight different services with no answer, or I was told that could not tow my kind of car. I highly recommend this service."

Morton states, "We are always grateful for our customers feedback. Seeing it shared online and hearing customers tell us we were recommended by others we have served makes us more determined to do our best. We invite all our customers, existing and new alike, to leave their reviews on Google, which we think will help those in need find us more easily in the future. Whether it is a jumpstart or a winch out and recovery, we can handle the situation without a fuss."

Those in need of towing services are invited to call the firm directly from their website at any time of the day or night. Those who are looking to book towing services in advance to get the best prices may call, email or leave an enquiry on the company's website via their online form. More information regarding their services is available on their website.
