

## **New Bike Lock from Lock Advantage Just Released On Amazon**

*August 07, 2015*

August 07, 2015 - PRESSADVANTAGE -

Lock Advantage has recently launched a new bike lock on Amazon. The details can be seen on <http://www.amazon.com/dp/B00ZH5DRNA>. The bike lock has been designed to provide protection and security to any bicycle. With a 6 feet long heavy duty self coiling cable, the lock is expected to keep any bike in place for as long as needed.

Lock Advantage's Preston Linville says, "Our lock is one of the best quality locks of its kind available on Amazon today. It is fully drill resistant, so someone can't quickly break the lock and steal the bike. It also comes with a key and holder. Hailed for its user friendliness, we hope that it will actually bring down crime statistics in terms of bike theft."

The lock is made from a strong, heavy duty steel material. This means it is durable and all but impossible to break through. Furthermore, it is a versatile lock. At six feet in length, it can handle a variety of applications besides locking up bicycles. It may also work on fences, gates, tools, lock ladders, and more.

According to the company, the lock has been recommended by Amazon users because of its security and

quality. The reviews that have been left to date do actually speak of that. "I love this bike lock!" says Summer. "The cable is made from heavy duty steel. This is a 6 foot cable which is perfect length for me. This bike lock came with two keys that are easy to lock and unlock. I have been looking for a good quality bike lock and this is definitely every thing I wanted. I like to ride my bike around my neighborhood and haven't felt comfortable with leaving my bike outside alone, but with this bike lock I am very comfortable with leaving it out side with this lock. This lock also isn't just for a bike you can use it with pretty much anything. I have also used this to lock up my generator while me and my boyfriend were camping. I'm extremely happy with the quality of this product. I would recommend this bike lock."

Lock Advantage fully believes in the quality of their products. This is why it comes with a full one year warranty. If anything goes wrong with the lock, it will be replaced immediately without any questions.
