

Chem-Dry of Park City, Utah Provides Pet Odor Removal Services

December 12, 2019

December 12, 2019 - PRESSADVANTAGE -

Chem-Dry of Park City, a carpet cleaning service based out of Park City, Utah, is pleased to announce that they are providing pet odor removal services. More information about the company's pet odor removal treatment can be found at the following link: [Park City Utah Pet Odor Removal](#).

Daryl Olsen, a representative for Chem-Dry of Park City, says, "Here at Chem-Dry, we absolutely adore our pets. They're there with us through thick and thin and they cheer us up. However, as much as we love our pets, it can be quite a challenge to keep our homes clean when we have pets around the house."

"Not only is it difficult to take care of a pet's bathroom accident when one takes place," Olsen says, "it's also quite difficult to figure out where they may have had previous accidents. With Chem-Dry here to help, however, you have no cause to worry. We can identify animal mishaps in your house and remove pet urine odors from your carpets by applying our state-of-the-art cleaning product: Pet Urine Removal Treatment (PURT). Our product works by getting in touch with the source of the stench and then immediately starting a chemical reaction that thoroughly eliminates that urine smell."

Chem-Dry's Pet Urine Removal Treatment was specifically developed to consist of and eliminate pet urine stench and has proven to be a success against extreme cases of odor. While most pet urine cleaning services simply mask the smell, Chem-Dry's product works at the molecular level and destroys the urine crystals to get rid of the smell entirely.

Pet urine in the carpeting causes problems beyond an ugly stain on the carpet and an undesirable stench, as it can penetrate the fibers and contaminate both the carpeting and the flooring below. This is why Chem-Dry of Park City recommends a thorough restoration job instead of a simple cleaning. Olsen says, "The longer a case is left unattended, the more likely it is for the urine stench to thoroughly ingratiate itself into the floor, wall surfaces and even the structure and foundation of your home. As the urine dries, the liquid evaporates but the urine crystals will become a lot more concentrated."

Olsen continues, "Until recently, there has not been a readily available product that was truly effective at removing the stench of pet urine. Our product changes that. In addition to being incredibly effective, our Pet Urine Removal Treatment is also a completely green product. It is completely safe and non-toxic for both children and animals." In addition to providing pet odor removal, Chem-Dry of Park City provides a variety of other services, such as carpet cleaning, granite countertop cleaning, rug cleaning, tile and grout cleaning, upholstery cleaning and so on.

Chem-Dry of Park City has earned themselves a reputation for providing excellent carpet cleaning services. On Google, the company has a rating of 4.5/5 stars. In a recent review, Amy Day says, "These guys were amazing! My carpets have never looked so good! I have been debating whether I should replace them or not but with Christmas coming, I decided to wait. I'm glad that I decided to get them cleaned instead. They look great, and I saved money by not getting them replaced! I will use them again for sure!"

In another review, Kelly Vasquez says, "We appreciate Chem-Dry of Park City so much. They were able to get rid of red stains that we had gotten from red wine. Also, they cleaned our tile and it looks so much better. The technicians were very professional and courteous, and they were on time, which we appreciate so much. We will recommend them to all of our family and friends."

Those who want to learn more about Chem-Dry of Park City and the various services they offer can find more information on the company's website. Additionally, the company encourages interested parties to get in touch with Daryl Olsen directly via email, phone or, alternatively, the contact form on their website. In addition, Chem-Dry of Park City maintains a page on Facebook where they frequently post updates, share information and communicate with their clients.
