

International Association Of Headache Specialists Updates Their Search Engine

November 27, 2019

November 27, 2019 - PRESSADVANTAGE -

International Association Of Headache Specialists is an international platform that creates a meeting point for headache patients and headache specialists. Headache patients looking for headache specialists can easily find clinics near them. On the other hand, headache doctors can market their services and attract more traffic on the platform.

There are many people using the internet to find medical services and headaches are not an exception. Speaking during the update announcement, the platform's representative said, "We have been working around the clock to make sure that headache patients can easily find a doctor near them. This is through a comprehensive search engine that shows the headache doctors near the patient on a map. For headache specialists, the platform provides a modern marketing opportunity which they can leverage to attract more patients to their clinics and increase sales."

Recently, the platform has updated their search engine to include more locations. "As our users increase, we have to upgrade our systems to make sure that everyone is taken care of. This includes inclusion of more headache specialist clinics for the convenience of patients. Our system attracts a lot of traffic and this is good

for both specialists and patients. We plan to further include clinics from different parts of the world and live up to the word international in International Association Of Headache Specialists.?

For more information on headache specialists and attracting more headache patients, visit the IAOHS website.
