

Facial Clinic in New York NY Announces New Website

December 04, 2019

December 04, 2019 - PRESSADVANTAGE -

Lena Skin Care NYC, based in New York, NY, has announced that they have recently launched their new website. The clinic which focuses on providing the best hair removal or facial New York NY residents can get, expects the new website to provide people with all the information they need to understand the kind of services that they provide. Owner Lena Williams is a certified cosmetologist and a Guinot professional who provides customized treatments with the goal of providing glowing skin without discoloration, marks, acne, or tiny lines.

Lena Williams says, "Perhaps one of the most commonly sought after treatments at our clinic is the facial, a type of skin care treatment that can involve a number of steps and techniques, including massage and mask, exfoliating treatments, peels, lotions and creams, extraction, and steam. Not only are these types of treatments helpful for maintaining overall skin health, but they can also be an effective means of eliminating blemishes as well as the appearance of wrinkles and other telltale signs of aging."

Lena Skin Care NYC offers various kinds of skin care services in New York City. These include facial, hair removal, waxing, Brazilian bikini wax bikini line wax, bikini wax, body wax, face wax, lip wax, microneedling,

acne treatment, acne removal, hydrafacial, Hydradermie lift, Hydradermie eye lift, skin care for men, skin care for teens, and skin care for women.

The facial is arguably the most popular treatment in the clinic. In addition, when in need of professional hair removal New York NY residents often go to Lena Skin Care NYC. Lena carefully chooses the best kind of treatment for each client to make sure that it is the most suitable for the client's skin and needs. For those who are not sure about the service that is best for them, they can simply ask Lena and her staff to find out the best treatment for themselves.

One of the most effective means of getting rid of unwanted hair is waxing. She and her staff make use of comfortable and virtually painless methods and they offer various kinds of waxing services. These include the hair wax, face wax, full body wax, bikini line wax, eyebrow waxing, upper lip wax, leg waxing, and underarm waxing. A related service is eyebrow shaping, which involves gentle, precise tweezing and waxing to make sure that the eyebrows will enhance the beauty of the eyes and other facial features.

Meanwhile, they also provide microneedling, which is a minimally invasive procedure. This involves the rolling of a microneedling dermapen across the skin of the face. The dermapen is a device covered with very fine, sterile needles. As it is rolled across the facial skin, it leaves behind very shallow tiny punctures on the skin. This causes the skin to increase collagen production, which minimizes wrinkles and scars, thereby resulting in enhanced fullness and vitality of the skin.

Meanwhile, the skin care clinic has been receiving mostly positive reviews. For instance, in the five star review provided by Olga T., she said, "I've been coming to Lena Skin Care for about 6 years already and this is the only place I go for my facials in New York City. Her service is impeccable, her product is of the highest European quality (I love Guinot cosmetics!) and the equipment that Lena uses for your skin is proven to show great results. You can relax after your facial with a cup of tea or coffee and goodies that she always has for her clients, that is true Russian hospitality!?"

Those who would like to know more about the services provided by Lena Skin Care NYC can check out their new website or visit <https://lenaskincare NYC10017.s3.us-east-2.amazonaws.com/index.html>. Or they can contact them on the phone or through email.
