

Coventry Dentist Offers Invisalign Aligners

December 05, 2019

December 05, 2019 -

Verum Cosmetic Dentists, based in Coventry, UK, has announced that they are offering Invisalign aligners as an alternative to metal braces. The Invisalign aligners are constructed from a clear and safe material that is practically invisible when Invisalign is placed in the mouth to straighten teeth. Invisalign has now become so well-known because of its advantages that more than 6 million people all over the world have already used it to enhance their smile. More information about Invisalign can be found at https://www.verumcosmeticdentists.co.uk/invisalign.

Dr Chetan Mathias from Verum Cosmetic Dentists says, ?People with uneven or gappy teeth are reluctant to get their teeth straightened. They do not want to be seen with metal braces. Invisalign is sensational. It allows for a near invisible teeth straightening treatment using clear aligners. Meanwhile, we have one of the most price competitive Invisalign offers. As a large dental group, we can buy Invisalign at a better rate and pass the savings to our patients.?

Dr Mathias continues, ?But wait, there?s more. On top of offering one of the best prices for Invisalign in Coventry, we are not charging anything for your first appointment. To make it even more affordable, we are

also offering affordable monthly payment plans at 0% interest.?

There are a number of benefits provided by Invisalign. First, the near invisible aligners are not as intrusive as metal braces in the patient?s life. Second, Invisalign is able to straighten teeth much faster than regular braces. Third, the clear aligners can be removed for cleaning and then placed back. Fourth, there is less damage to the teeth and gums. Fifth, patients will be able to restore their beautiful smile. And lastly, patients will be able to enhance their self-confidence. More information about the advantages offered by the near visible aligners can be viewed in the video at http://www.youtube.com/watch?v=TeUW8tzURuo.

Invisalign is part of the orthodontic services offered by Verum Cosmetic Dentists. And aside from Invisalign, they also offer the standard braces and lingual braces. Regular braces are used to correct over-crowded, crooked, or protruding teeth. And this doesn?t only have cosmetic benefits. It also helps the patient effectively chew, bite, and speak more clearly, in addition to having healthier teeth and gums. They offer both Damon Braces and 3M braces, both of which are leaders in this particular field. 3M was the first company to provide stainless steel braces and their products have become popular worldwide. Damon Braces is an innovative brand that offers braces without the elastic ties that tend to collect plaque. Also, the Damon System has the advantage of requiring fewer appointments and providing faster treatments. Clear brackets are also available.

Lingual braces are for patients who have teeth overcrowding or have gaps between their teeth. The lingual brace can also be used to correct an improper bite. They are just like metal braces except for the fact that they are attached to the back of the teeth instead of the front, which makes them practically invisible. These are often recommended for those who are into contact sports or who play a wind instrument to ensure that the braces will not get in the way.

Verum Cosmetic Dentists also provide various kinds of cosmetic dentistry services. These include dental implants, veneers, crowns, bridges, gum treatment, endodontics, single visit crowns, white fillings, and dentures.

Meanwhile, people who have tried the services provided at Verum Cosmetic Dentists have mostly positive things to say about them. For instance, T.V. says, ?To Dr Mathias thank you very much for being so kind and understanding of my phobia where dentists are concerned. I know this is an ongoing process but so far they are beginning to look great already. Many thanks.?

And a certain patient with initials J.H. said, ?Dearest Dr Mathias and Julie. Just a note to say thank you for the professional way you both put me at ease during my implant procedure. My new teeth are great you are a very good team. Thanks again.?

Those who are interested in the cosmetic dental services offered by Verum Cosmetic Dentists can visit their website at http://www.verumcosmeticdentists.co.uk, or contact them through the phone or via email.
