

Credit Repair Company Receives 5 Star Review

December 04, 2019

December 04, 2019 -
Poser Tubes Credit Repair, based in Anaheim, California, has announced with pride that they have recently received a five star review. The client who provided the rave review wants to recommend the credit repair program offered by the company. The company takes care of all the factors that contribute to credit restoration while the client is able to monitor developments through a client reporting dashboard. They also provide a guarantee, which means that clients can get a full refund if their credit score fails to improve. More about this review can be found at https://www.google.com/maps/place/Poser+Tubes+Credit+Repair+-+Anaheim/@33.8262651,-117.9394304,13z/data=!3m1!4b1!4m7!3m6!1s0x0:0x699a6408399aa4e!8m2!3d33.82627!4d-117.904411!9m1!1b1.

In the five star review, Ron M. said, ?I was very pleased with the service I received. The agent was very helpful and pleasant to talk to and answered the questions I had and was very informative on the program. I would recommend the program to others.?

Thad Ingram, a spokesperson for Poser Tubes Credit Repair in Anaheim, says, ?We?re very grateful for the kind words from our client. Indeed, our clients are first and foremost in everything that we do. We always make sure that our clients benefit from our efforts. And everything is transparent. You?ll see what negative items have been removed from your credit, which items are in progress, and what the next actions are

towards fixing your credit. We?ll also suggest a credit monitoring service that will display your credit rating increasing, as we get rid of damaging items from your records.?

Poser Tubes Credit Repair also wants to point out that they offer a 100 percent risk free guarantee. They guarantee that they will be able to eliminate items in the clients? credit history, thus resulting into an improved credit score. If this does not happen, they will issue a 100 percent refund, guaranteed. Those who are interested in their office location can check out their Google Maps page at https://maps.google.com/maps?cid=475594031680301646.

They would like to point out that there a number of items on a clients? credit history that have an impact on their credit score. These include late payments, collections accounts, judgements, foreclosures, paid for less than the amount due, bankruptcies, paid charge offs, and charge offs.

Rebuilding a person?s credit usually takes a long time. It may take a number of weeks, months, or even years, and not just a number of days. People will also need to make a continuous effort to maintain certain changes in their financial habits. Using this sustained approach, people may be able to notice changes in their credit score within a span of three to six months.

Items like late payments and collections may require up to seven years before their negative effects have been totally removed. This does not mean, however, that it will require seven years to repair a person?s credit score. What this means is that it will only be after seven years that the person?s credit file will be really clear or any negative items like late payments and collections. By focusing on clearing debt and regularly complying with payment deadlines, a person will notice credit score improvements within six months to one year.

The service provide by Poser Tubes Credit Repair involves the elimination of negative marks on a person?s credit report. They will actively work on boosting the client?s credit. And clients will be able to see the progress of these efforts through their credit reporting dashboard. And people from all over the US may be able to take advantage of their service because they operate 100 percent remote.

They will also provide clients with a credit repair progress report every month so that clients are updated on which negative marks on their credit history have already been eliminated, which items are still in progress, and the next steps that need to be taken in order to further improve their credit score.
