

Missame LLC Launches New Eyebrow Shaping Tools On Amazon

August 12, 2015

August 12, 2015 -

Sacramento, California based beauty supply company Missame LLC has announced the launch of a new product on the Amazon marketplace. The tweezers and eyebrow scissors set, which has been made available to customers, is designed to complement Missame's other beauty tool product, which is the angled eyebrow brush set.

Amy Ng of Missame LLC recently stated, "We're pleased to be offering this newest tool to our customers. The eyebrow tweezers and scissors are high quality and go perfectly with our eyebrow brush set for easy and effective brow shaping."

The three piece kit comes with one slant tipped tweezer, one pointed tip tweezer, and one pair of curved tip scissors that allow users to have great eyebrows in an easy way. The tools fit neatly into a pink carrying case, which helps to protect the sharp tips, and the small size makes it easy to take them along on the go. Missame LLC backs this beauty tool set with a 100 percent satisfaction guarantee.

"I love it," says one satisfied Amazon customer. "I always have such trouble getting my brows to look right, and this set makes it so much easier. The tools are all comfortable to hold and they do a wonderful job. The carrying case is a really nice added bonus, too."

The tweezers and scissors included in the eyebrow shaping kit are all 100% stainless steel and the carrying bag is faux leather. Customers say that for women who find it difficult to keep their brows maintained, this is the go-to kit.

"I couldn't believe how much better my eyebrows looked," says Linda. "I was really pleased with the angled brush set, and this one just takes my brow shaping to a whole new level. I love that they've included scissors to trim those longer hairs. Plucking is really not my cup of tea, so the scissors work great for me."

Missame LLC provides a selection of beauty products for women, including the tools for eyebrow shaping and trimming. "We're planning to add more products in the future and can't wait to see what our customers think of our upcoming line," says Amy Ng.
