Painting Company Completes Commercial Painting Job

August 10, 2015

August 10, 2015 -
People's Painting Co. Inc, based in Cantonment, FL, is proud to announce that they have recently completed a commercial painting job for the Pensacola Hardware Co. The job consisted of interior and exterior painting, as well as renewing the store signs. It was fully completed on time and within budget and the store owners couldn't be happier with the results.

"We were really happy to take on the job of painting Pensacola Hardware Co.," says Mark McKinney from People's Painting Co. Inc. "We have been working in the Pensacola area for over 30 years now, and the hardware company has always been an integral part of the community. We wanted to help bring it back to life, while maintaining the historical character of the building. Both ourselves and the hardware company couldn't be happier with the results."

The People's Painting Co. offers not just commercial painting. They have also branched out into house painting, both inside and out. In so doing, they hope to be able to serve even more members of the Pensacola and beyond community, assisting them in creating beautiful, comfortable homes. They provide free estimate to all interested parties and are fully insured to carry out the work that they do.

They also take on work following water damage, and they offer a nighttime and weekend maintenance

program. This service is particularly suitable for commercial properties, where painting could potentially be disruptive to normal business services. "We have seen a significant need for businesses to be able to renovate and revamp their properties without having to stop working," adds Mark McKinney. "This is why we have made sure that we can complete our work during the night and on weekends, so that there is no downtime for our customers."

The weekend service is also particularly interesting for those looking at residential painting. It means that they can have painters come in during times they are at home themselves, if they prefer. Alternatively, they can take the opportunity to have a weekend away and come back to a freshly painted and updated property. Customers are encouraged to contact the company to find out what is most suitable for them.
