December 17, 2019 -
Pet Supplement company Uploria Pet World is proud to announce a number of new positive reviews for their joint supplement products for dogs on their website, due to popular demand for the product. The joint supplement product, available at https://uploria-pet-accessories.com/products/joint-supplements-for-dogs, is useful for older dogs with arthritis pain, by supporting the healing of damaged tissues, and reducing inflammation. This allows dogs more freedom of pain free movement, and, as a result, increases both comfort and mobility in elderly pups. According to the company website, these supplements are ?Manufactured In The UK To GMP Code Of Practice And ISO 9001 Quality Assurance Certification. Ensuring Product Quality And Safety Are Exceeded For Your Beloved Dog.? This means customers can trust their products to do their job and be safe for their dogs.

The joint supplement has 16 reviews on the company website, all of which are 5 out of 5 stars. Most reviews report improvement in their dog?s mobility, including one detailed recent review from a customer identified only as Ms S. She said, ?I was skeptical at using this product but after seeing the reviews, I thought i would give them a go for my 14 year old Collie who has arthritis. I was given pain relief from the vets for her but I couldn't get her to eat more than one tablet, even crushed up and hidden in her food so I gave these a go. 3 days in and I've already noticed a huge improvement. I am giving her 4 a day, two crushed up with her food in the morning and then at tea time. She was having trouble with her back leg and was holding it up in pain but now she's walking on it and once again has more energy. Really pleased with these tablets.?
